electric fencing

PREMIUM QUALITY 7

UNIQUE IN THE MARKET

7-YEAR WARRANTY

ON ALL ENERGIZERS

McVeigh Parker

Welcome to Gallagher

Your specialist in electric fencing

Gallagher was founded in Hamilton, New Zealand in 1938, and has been the quality brand of electric fences for more than 80 years by now. With a large global distribution network, Gallagher is market leader in the electric fencing sector. We supply customers in a variety of markets, offering the most appropriate fencing solutions to either protect animals or keep other animals out.

Innovation has always been one of the main Gallagher spearheads. Our products are developed on the basis of an agricultural vision, and tested by end users. Once again this year, we have added a number of attractive and innovative products to our range. Take the new range of 9 V energizers for example. Whether you want to keep your animals under control, or to protect them against (wild) animals, Gallagher can always offer a suitable solution.

7-year warranty on all Gallagher energizers!

The power and quality of our products have been unrivalled for many years. That's why we give a 7-year warranty on all Gallagher energizers!

Valid upon registration via the website. More information and terms:

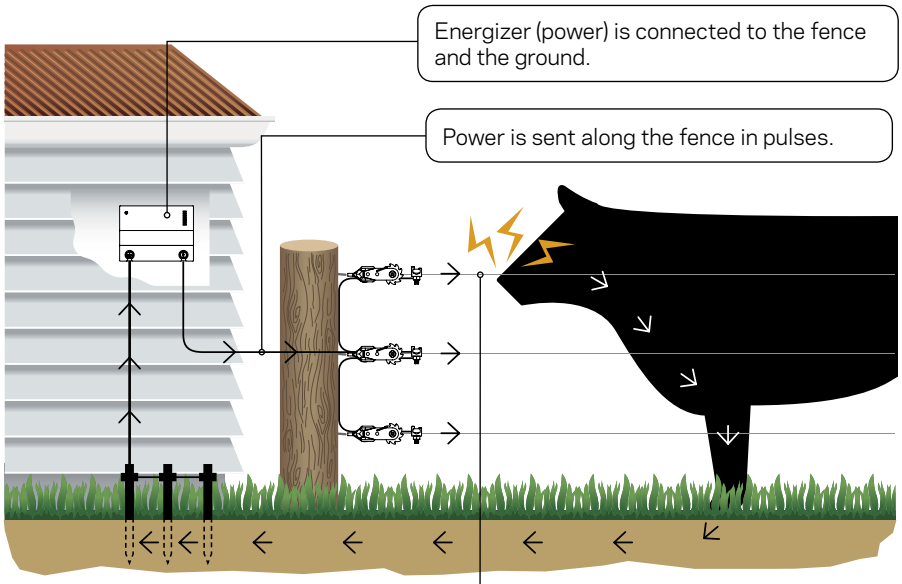
How Electric Fencing Works

A short, safe and memorable shock to create a psychological as well as a physical barrier.



Do you want to know how to install an electric fence? Please check page 82 in the back of this catalogue.

SAFE
Animals remember and develop a respect for the fence

DURABLE
Stock pressure on your fence is reduced so it lasts longer

EASY TO INSTALL
Less than half the time to build vs a non-electric fence

ECONOMICAL
Costs less to build and maintain than a non-electric fence

7-year warranty on all Gallagher energizers!

The strength and quality of our products has been unrivalled for many years. That's why we give a 7-year warranty on all Gallagher energizers! Valid upon registration via the website. More information and terms: www.gallagher.eu/warranty

PREMIUM QUALITY 7 7-YEAR WARRANTY

Getting Started...

Every electric fence system is made up of an energizer, a grounding system and a fence system.
Selection of these systems depends on property size, fencing usage and animal type.

1. **What animals do you want to keep in or out?**
2. **Total area to be fenced**
3. **What power source will you use for your energizer?**

   Gallagher 230 Volt energizers are the best and most economical choice for areas where you have reliable power. Solar/Battery or Solar powered energizers are the most logical for remote areas.

4. **Do you need a permanent, offset or temporary/portable fence?**

- **Permanent:** Long life, permanent electric fences for highly effective animal control that lasts a lifetime.
- **Offset:** Protect and extend the life of an existing conventional non-electric fence by adding electric wire(s).
- **Temporary/Portable:** Easy to transport, assemble and take down allowing flexible fencing for short-term animal control or rotational grazin

At Gallagher, we work non-stop to refine and extend our range. In 2021 therefore, we will once again be introducing a number of innovative products to both protect your animals and to keep out unwanted guests (predators). We are proud to once again present you with attractive products, based on our customer research.

PREMIUM QUALITY 7 YEAR WARRANTY

The new Solar devices

p. 29

S6 solar fence energizer

Keeps unwanted animals out and your pets in. The S6 is a compact, portable and reliable solution for the longterm protection of your garden and pets.

The i Series system – the fence that talks to you.

Working together the i Series system provides fence information at a glance and if it detects any faults, it leads you directly to them, saving you hours of searching.

We are extremely proud of our i Series, as they are not only amazingly powerful devices (up to 100 km!), but they are also smart! The i Series gives you maximum control and helps you save time. So how does that work? By adding various accessories, you have direct insight into the status of your fence, however far away in the field. If there is an issue, you receive a signal on the display or on your smartphone. It tells you exactly where to find it. Saving you the search and therefore time. Many people have already discovered the great performance of this device. Will you be the next enthusiast?

Unrivalled performance with a range of no less than 100 km. Developed in response to demand from the market.

p. 12

The fencing monitor warns when the values for that zone drop below the set values.

p. 37

PREMIUM QUALITY 7 7-YEAR WARRANTY

Maximum control! Thanks to the separate, waterproof display you can read the status of the fencing and it can be operated up to a distance of 50 m from the energizer.

Maximum control with your smartphone. Insight into the status of your fencing, fault alerts and switching the energizer on/off, wherever you are.

p. 37

By placing the remote control on the fencing, it becomes clear where the fault is located. The energizer can be switched off using the remote control.

p. 37

Checking 100 km of fencing....

... takes less time than reading this sentence!

Everyone wants to have power on their entire fence and the security that the animals stay safely behind it. So any owner will check the fencing regularly to see if there are any issues that could result in a lack of power.

Longer fences
That is relatively simple for a small fence, but what about fencing of 10 km or more? At that point, a daily check of the fencing soon takes up too much time, and is likely to be skipped. The result is a risk of power loss on the fencing and an unsafe situation for the animals. So Gallagher developed a smart solution so that you always know whether there is enough power on every part of the fence, without this taking up any time.

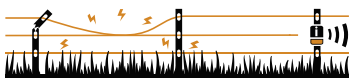
Visible on external display
By installing fencing monitors, in combination with any i Series energizer, it becomes clear how much power there is in that particular place. That status is shown on the display of the i Series energizers. The more fencing monitors you install, the clearer the picture of your entire fencing.

You no longer need to go out to check your fencing. All you need to do is read the external display of the i Series energizers. Wherever you are!

Insight at all times
You can also see the status of your fencing on your smartphone. Thanks to the Gallagher smart app, you have real-time knowledge of the status of your fencing. If there is anything wrong, you receive an alert on your phone. You know which part of your fence has an issue and you can intervene quickly. Once on site, the remote control helps you to find the exact location of the problem.

All in all, complete control over your fencing and massive time savings!

1



Fence Monitor(s) recognise any significant drop in fence zone or Energizer performance and raise alarms.

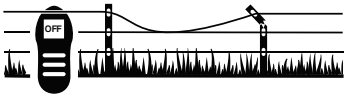
2

Alerts are sent to the Energizer Controller, your mobile phone (via optional Dashboard Fence App) and/or optional Alarm System.

3

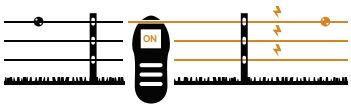
The Controller and Remote indicate which zone is in fault. The Remote is used to find the fault within the zone.

4



Once the fault is repaired, power is restored to the fence and tested using the Remote.

5



Power to the fence at the fault location is turned off using the Remote, allowing a safe and convenient repair.

Do you want to know how the i Series system works?
Go to www.gallagher.eu/i-series for more information or scan the QR code to watch the clip.

M5000i

The new powerhouse on the market

The mega-powerful M5000i is the latest addition to the familiar i Series, which represents ultimate power and absolute control.

The ultimate power is achieved thanks to the integrated Adaptive Control®. This provides continuous voltage on the fencing, any time anywhere, with the lowest possible electricity consumption. Energizers from the i Series burn away vegetation and ensure maximum power is retained at the end of the fencing.

PREMIUM QUALITY 7 7-YEAR WARRANTY

"WHAT AN ENERGIZER!"

Powerful 15 Joule energizer Up to 100 km

Reliable, adaptive i Series technology – The proven Gallagher i Series technology provides complete confidence in continued fence performance irrespective of changes in power supply, temperatures and fence conditions.

Easily monitor and control fence performance - Mount in a convenient location up to 50 m* from Energizer for easy access to fence control and performance information.

Compatible with i Series accessories – Fully compatible with i Series remotes, fence monitors, alarm system and the supplied display monitor (shown below).

MBS800, MBS400 and MBS200

Strong 12 V energizers that can also be connected to the mains or powered by solar panels. The extremely sturdy housing of these devices is resistant to frequent transport that is part and parcel of using a portable energizer. This MBS series has a Battery Management System, the device automatically adjusts to the energy level of the battery. If it is low, the pulse slows down too. All MBS energizers are supplied with a power feed adapter in order to be able to connect the energizers to the mains network (230 V). The connecting cable required to connect the device to the fence is also supplied standard.

MBS800, MBS400 and MBS200

- Fast, flexible installation
- Portable, water resistance case
- Built in lightning protection
- Including mains adapter
- Including connection cable set

MB300 and MB150

PREMIUM QUALITY 7 7-YEAR WARRANTY

The MB300 and MB150 are multi-power energizers suitable for longer fences of up to 25 km and 15 km, respectively. These energizers work on 230 V and with a 12 V battery. The design means the energizer is easy to move and it can be mounted in various ways. The energizer is supplied with a set of cables. The MB300 and MB150 are energizers in the Special Edition Range; powerful devices for an attractive price.

MB300 and MB150

- Dual Power: 230 V plug in or battery power
- Superior fence performance
- Reliable animal control is assured with built in lightning control
- Mains power supply sold separately
- Battery not included

S230 and S220

PREMIUM QUALITY 7 7-YEAR WARRANTY

Combination set of a B200 energizer, solar panel, bracket and an Optima accumulator. The perfect, reliable combination for problem-free provision of power to your fence for many years. Maintenance free. Ideal for sunny regions and for fences up to 20 km. Contents of S230 and S220:

S230: B200 energiser, 30 W solar panel, bracket, and 3.7 L Optima battery
S220: B200 energiser, 20 W solar panel, bracket, and 2.7 L Optima battery

- Total solution for a mobile fence
- Battery unit on solar
- Convenience for you!

BA80 and BA40

PREMIUM QUALITY 7 7-YEAR WARRANTY

Gallagher has revised its 9 V devices. They are all powerful battery devices that are simple to operate, and with a sturdy housing of the quality you've come to expect from Gallagher. The BA80 and the BA40 have a black housing with orange cover. These devices have an energy-saving setting. By using the energy-saving setting, you extend the life of the battery because the device gives slower pulses. The control lamb on the energizer shows the pulse of the battery. The BA80 and BA40 are suitable for larger (mobile) fences. The energizers are supplied with a set of connectors. Excluding battery.

BA80 and BA40

- Simple to connect, all lead sets included
- With lightning protection
- Robust housing
- Easy to operate
- Additional setting to alternate pulse to extend battery life
- Including connection kit
- Excluding battery

356358	BA80	= 1	£ 199.17	£ 239.00

B11 and B10

The B11 is an extremely handy battery device, with adjustable battery saving options. This energizer is easy to fit and to connect up. Extremely suitable for multiple wire fences up to 1 km The B11 is supplied with a 12 V accumulator connector cable and 6 × 1.5 V battery set.

The B10 is an extremely compact battery-powered energizer for very short fences (< 1 km). This device works on 6 × 1.5 V Alkaline D cell (LR20) batteries (not included). The B10 also works on a 12 V accumulator, B110/12 V adapter kit.

B11 and B10

- Compact devices
- Easy to connect
- Can also be connected to 12V battery

013534	B11	= 1	€ 132.50	€ 159.00

See page 94-98 for more specifications

S400 and S200

PREMIUM QUALITY 7 7-YEAR WARRANTY

The S400 and the S200 are the strongest devices in the Gallagher solar range. These energizers have a powerful solar panel and are fitted with the Battery Management System, ensuring that the energizer automatically adjusts to the battery's power level. If the energy in the battery decreases, the pulse adjusts to have current on the fencing for as long as possible. The S400 and S200 are supplied with batteries included and a stand (50 cm), that is also suitable for use as an extra earthing rod.

S400 and S200

- Multiple power options, the customer has full control, with multiple operation modes to suit wildlife animal exclusion and livestock animal inclusion.
- Portable and quick to install, easily set up in any location and moved about as required allowing it to be used for strip grazing and better pasture management.

361307	S400 incl. batteries	= 1	£ 632.50	£ 759.00

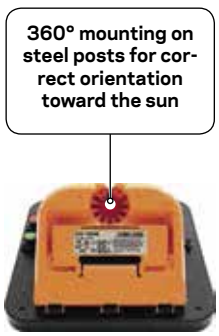
See page 94-98 for more specifications

S100 and S40

PREMIUM QUALITY 7 7-YEAR WARRANTY

The S100 and the S40 are easy-to-install solar energizers that are also very portable. No more hassle with empty batteries, even after 3 weeks without sunshine or power. These energizers have built-in lightning protection, and are supplied with batteries included.

The S100 is suitable for fences of up to 10 km and is fitted with the unique Battery Management System (the device is automatically adjusted to the power level of the battery).
The S40 is suitable for fences of up to 5 km.



S100 and S40

- Multiple power options - two operating modes ensure optimum battery usage, even in periods of low sunlight:
- Fully integrated, ready to use - includes fence/earth leadset, rechargeable 12v battery, solar panel and mains rechargeble power kit.

346304	S100 incl. battery	= 1	£ 324.17	£ 389.00

S20, S16 and S10

PREMIUM QUALITY 7 7-YEAR WARRANTY

Your fencing is less than 3 km long? That makes the S20, S16 or S10 extremely suitable. These devices are quick and easy to install, easily portable and tough enough to withstand a fall. They are supplied with a battery included. The S20, S16 and S10 can also be easily attached to the Gallagher Ring Top post by means of a separately available stand support (art. 571102). Or opt for a separately available 50 cm stand (art. 730003) or 90 cm version (art. 007509). The stands can also be used as an extra earthing rod.

S20, S16 and S10

S20: < 3 km, S16: < 1,5 km, S10: < 1 km

- Operates in sunlight and daylight
- Quick and easy to install
- Ideal smaller (mobile) gates

S12 and S6

PREMIUM QUALITY 7 7-YEAR WARRANTY

S12: A compact, portable and super reliable energizer that is designed on the basis of real, practical needs. An internal lithium battery, smart electronics and a robust construction come together for unrivalled performances. With built-in earthing and advanced solar technology, Gallagher has taken portable solar-powered energizers to a new level.

S6: The S6 has been developed for private users For example, to keep cats out the garden or herons from the pond. The S6 is extremely suitable for the campsite or the garden as an energizer on a temporary fence, to keep pets near, or unwanted animals away.

2021 NEW PRODUCT

Solar box MBS2800i, MBS1800i and MBS800

This solar station is plug and play. The energizer, the batteries, solar panel, earthing mix and earth pegs are all included. The only thing you need to do is ram the supplied earth pegs into the ground and connect the energizer. Simple, quick and time saving! This solar station can be expanded with all the accessories for the i Series energizers for even more control and convenience. With this set, you have everything you need for fencing conveniently together.

PREMIUM QUALITY 7 7-YEAR WARRANTY

Batteries

To power a 9V or 12V energizer, you need a Gallagher battery. A Gallagher 12V energizer and an Optima 12V battery are the ultimate combination! The Optima battery is the most environmentally-friendly solution, because of its durability.

12V Battery

12v

A maintenance-free, 12V battery that provides reliable and consistent power.

This long life battery can be used as a power supply for 9V devices.

033409	12V/105Ah LA - 353x175x190mm	= 1	£ 171.67	£ 206.00
004171	12V/85Ah LA - 278x175x190mm	= 1	£ 145.83	£ 175.00
033515	12V/65Ah - 242x175x190mm	= 1	£ 90.83	£ 109.00

12V SLA Battery

12v

Maintenance free batteries. Suited for powering battery energizers. The 25Ah is a sealed lead/ acid battery. Fits into the case of our 9Volt energizers when using a solar panel.

033553	12V/25Ah - 166x175x125mm	= 1	£ 74.49	£ 89.39
033931	12V 7,2Ah Battery S100, S200, S400	= 1	£ 62.49	£ 74.99

12V Optima Yellowtop

12v

Uncompromising Quality! This Optima S5,5L 12V battery can be compared with a regular 105Ah 12V battery, but is smaller in size, lighter in weight and has a longer life. Ideal for use with solar modules. Extremely fast recharge with all common, regulated chargers.
Volume 5,5 litres, dimensions L325xH238xW165mm.

062096	12V/S5,5L - 325x238x165mm	= 1	£ 255.83	£ 307.00

Battery Charger CTEK

12v 5 YEARS

Most batteries loose charge during winter time. Prevent this by connecting your battery to this maintenance charger. Your battery will remain charged! Essential for your battery during winter time. This charger is capable to charge all batteries up to 105Ah.

056707	12V XS 0,8 EU	= 1	£ 57.91	£ 69.49
567299	6V XC 0,8 EU	= 1	£ 57.91	£ 69.49

Solar panels

Solar panels in combination with battery energizers extend the lifespan of your battery

- Gallagher provides top-quality, tested solar panels with a 2-year warranty on all modules.
- Solar power is environmentally friendly and an increasingly popular economical energy provider.
- All solar panels have a controller that protects the battery against overcharging.
- The range is completed with galvanised brackets, bolts and clamps.
- All solar panels have polycrystalline cells for maximum energy yield.
- Solar panels can be used with mains energizers if you use a converter (item no 069392).

Solar panel

12V 2 YEARS

Polycrystalline high-performance solar module with optimised low-light and temperature features. With sealed high-performance load regulator. Shock-resistant and hardened solar glass with self-cleaning surface and sturdy aluminium frame. Complete with power cable. Very easy fitting. More than 20 year service life.

041718	60 Watt incl. 10A regulator	= 1	£ 437.50	£ 525.00
027897	Solar panel 50W incl. 10A regulator	= 1	£ 349.17	£ 419.00
041725	Solar panel 30W incl. 10A regulator	= 1	£ 262.50	£ 315.00
041732	Solar panel 20W incl. 2A regulator	= 1	£ 174.17	£ 209.00
041701	Solar panel 10W incl. 2A regulator	= 1	£ 140.83	£ 169.00

Solar panel regulator

12V 2 YEARS

10A Regulator for 30W, 50W and 60Watt Solarpanel.
Comes included with 3m cable, female cable terminals and Alligator clips.

068845	10A Regulator for >30W Solar panels	= 1	£ 52.49	£ 62.99
068838	Regulator 2A for 10/20W Solar panel	= 1	£ 34.99	£ 41.99

Solar panel bracket

2 YEARS

To mount the panel on the wall, post or on the anti-theft box.

069781	Bracket for 50/60W Solar panel	= 1	£ 44.74	£ 53.69
069774	Solar bracket 10/20/30W Solar panel	= 1	£ 45.24	£ 54.29

Solar panel bracket

2 YEARS

Bracket for mounting a 10W, 20W or 30W GE Solarpanel to a B100, B200 or B300 Energizer.

068709	Bracket for B100/B200/B300	= 1	£ 36.83	£ 44.19

Earthing ensures that the current can flow back to the energizer as soon as an animal touches the fence. No earthing means no current on the fencing, which is essential to good fencing!

Earth stake

2 YEARS

Without a proper Earth System your energizer will not perform . Always use galvanised earth stakes. Battery Energizers: Earth Stake length 1m c/w clamp.

029037	2m with earth clamp	= 3	£ 53.41	£ 64.09
084487	1,7m with earth clamp	= 1	£ 18.33	£ 21.99
029020	1m with earth clamp	= 3	£ 35.83	£ 42.99
008735	1m without earth clamp	= 1	£ 10.16	£ 12.19

Earthing accessories

2 YEARS

Earth socket for earth peg. Ideal to connect two pegs in bad earthing conditions.

044023	Earth socket	= 1	£ 7.91	£ 9.49
044030	Earth clamp	= 1	£ 7.74	£ 9.29

Bentonite

Earthing can be achieved simply and quickly with this mix, even in extremely dry conditions. The mixture of salt and absorbent clay retains moisture and increases the conductivity of the surrounding soil. To be used in poor earthing conditions and in combination with more powerful energizers. Excl. earth stake.

008773	Super earthing mix (6kg)	= 1	£ 53.58	£ 64.29

Earth stake 0,5m

2 YEARS

Without a proper Earth System your energizer will not perform. Always use galvanised earth stakes. To improve the earthing of Dry-cell battery-units use the 0,5m stake (c/w 3m of cable). The 1 meter earth stake is ideal for earthing 12V energizers. C/W clamp.

031023	Earth stake 0,5m with 3m cable	= 1	£ 9.91	£ 11.89

Lead out cable XL Red

10 YEARS

This earth cable has heavy-duty double insulation for optimum protection. The earth cable is suitable for underground current conduction.The aluminium-coated core has a high tensile strength and its conductivity is 4x better than that of a standard earth cable

627922	Red 2,5mm 50m	= 1	£ 74.83	£ 89.79
016276	Lead out cable 2,5mm XL High Conductive 200m 8,4 Ohm/km	= 1	£ 282.50	£ 339.00

Lead out cable

Double insulated lead-out cable with meter marking to connect the energiser with the fence and to make (underground) connections (e.g. gateways). The core of 2.5mm galvanised wire makes this cable also suitable for distances longer than 30m.

162713	2,5mm - 400m - 35 Ohm/km	= 1	£ 482.50	£ 579.00
021611	2,5mm 100m 35 Ohm/km	= 1	£ 132.50	£ 159.00
062712	2,5mm 50m 35 Ohm/km	= 1	£ 67.08	£ 80.49
065011	2,5mm 25m 35 Ohm/km	= 1	£ 24.41	£ 29.29
021604	1,6mm 50m 100 Ohm/km	= 1	£ 37.74	£ 45.29
066097	1,6mm 25m 100 Ohm/km	= 1	£ 20.41	£ 24.49
065028	1,6mm 10m 100 Ohm/km	= 1	£ 9.83	£ 11.79

Earthing accessories

2 YEARS

Excellent connections between different lead-out cables are essential to prevent power loss. This harsh environment connector for lead-out cables up to 2,5mm offers a secure, waterproof connection and is easy to install.

063796	Lead-out connector	= 2	£ 20.41	£ 24.49

Vandal proof box

2 YEARS

A galvanised box that protects battery and fence units. To deter vandals, the box is connected to the energizer.
Outside box dimensions 412x270x565mm (LxWxH).

083046	Electrified Vandal Proof Box	= 1	£ 133.33	£ 160.00

Gallagher Solarbox

2 YEARS

Portable box for energiser, battery and solar panel.
Suitable for:
Max. size of energiser: 380x110x300mm (lxwxh).
Max. size of battery: 330x175x240mm (lxwxh).
Gallagher solar panel 10W, 20W and 30Watt.

073511	Gallagher Solarbox	= 1	£ 108.33	£ 130.00
077328	Solarbox bracket for 50/60W Solar panel	= 1	£ 23.08	£ 27.69

i Series Remote Controller

2 YEARS

- Energizer controller: Shows all your fence performance information in one convenient separate display box that can be placed up to 50m away from the energizer itself.

507002	Remote controller for i Series	= 1	£ 228.33	£ 274.00

i Series Fence Monitor

2 YEARS

Allows you to monitor a separate section of your fence. The Fence Monitor communicates through the fence line with the energizer.

510002	Fence monitor for i Series	= 1	£ 211.67	£ 254.00

i Series WiFi Gateway

2 YEARS

Fence performance in your pocket! Connect the i Series WiFi Gateway to your existing Gallagher i Series Energizer, install the Dashboard - Fence app on your phone and get real time fence information. The WiFi Module will connect to the port on the back of the I Series Energizer. The controller is then connected directly to the WiFi Gateway.

567006	i Series WiFi Gateway	= 1	£ 328.33	£ 394.00

i Series SMS Controller

2 YEARS

This SMS controller for the I-series warns you via a text message when the fence voltage gets below a preset alarm level. In addition, the controller sends updates to your mobile phone.

567600	SMS controller for i Series	= 1	£ 699.17	£ 839.00

i Series Automatic Transfer Switch

2 YEARS

The Automatic Transfer Switch US-12N provides a faultless switch from mains to battery/inverter voltage in an i-Series configuration.

400336	For i Series backup systems	= 1	£ 100.83	£ 121.00

i Series Alarm System

2 YEARS

Monitor a section of fence and drive external strobe lights, sirens or alarm panels.
The Alarm System provides an alarm on the Energizer Controller, Remote or your phone (via the separately available I-series SMS Controller), should an electric gate be opened or wire cut. Connects to the energizer by wired connection.

579009	Alarm System for i Series	= 1	£ 274.17	£ 329.00
005215	Siren	= 1	£ 26.91	£ 32.29
005208	Flashlight	= 1	£ 71.33	£ 85.59

MB series 12V Battery Backup system

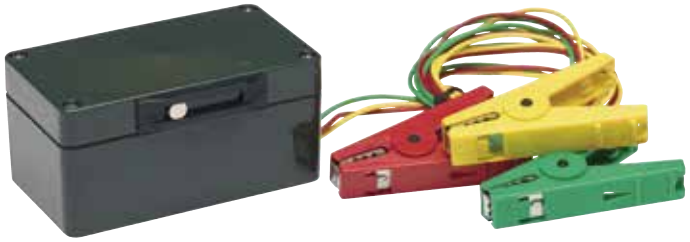
2 YEARS

The Gallagher battery back-up provides an automatic battery supply when there is no mains supply to the energizer. The back-up is easy to install and compatible with all MB i Series and MB/MBS energisers.

582108	12V Battery Backup system	= 1	£ 148.33	£ 178.00

SMS fence alarm

The SMS fence alarm is a unique plug & play security for your fence. Compared with the existing devices this product is in another league. The SMS Fence alarm warns you via SMS if the voltage is too low.



055654	SMS fence alarm	= 1	£ 436.67	£ 524.00

SMS remote control (GSM)

With the (GSM) SMS remote controller you can switch all mains energizers on and off by calling or texting with your mobile phone. So if you detect a fence failure, you can instantly repair your fence without getting a shock. Even in case of sudden power failure, the system will send a text message.

557063	With Power failure notification	= 1	£ 124.17	£ 149.00

Cut out switch

By using a switch, you can divide your fence into several sections and switch them on and off independently of each other. This will also help you trace any faults that occur.

060705	Cut out switch	= 1	£ 16.58	£ 19.89

Knife Cut-Off Switch

This switch helps you to switch off a part of the fencing for maintenance, for use for passages and gates or when you are looking for faults. The switch also offers the option to divide the fence into different plots. It can also be used to switch the fence on or off on the spot.
The switch is made of stainless steel, visible from a distance, and is supplied with fitting screws.

000770	Knife Cut-Off Switch	= 1	£ 14.08	£ 16.89

Lightning diverter

The only adjustable lightning diverter on the market, suitable for every energizer. Protects the energizer against damage through lightning by diverting the lightning from the fence to ground (earth). The lightning diverter needs to be mounted between the fence and the energizer. Can withstand multiple lightning strikes.

064802	Lightning diverter	= 1	£ 32.41	£ 38.89

Flood gate controller

Device especially for ditches that can be mounted on a fence. It stops the current flowing through the bottom line if the water (or another resistance) reaches the bottom wire. The rest of the wires will keep its voltage. Has a resistance of 5600 Ohm.

1506	Controller 5600 Ohm	= 1	£ 28.33	£ 33.99

Crocodile clip

400204	Crocodile clip red (5)	= 5	£ 8.08	£ 9.69
400211	Crocodile clip green (5)	= 5	£ 8.08	£ 9.69

Aluminum warning sign

2 YEARS

This aluminium warning sign is made of anodised aluminium. The text on the sign is particularly clear to read and it is resistant to the elements. As this warning sign is electrified too, it is unlikely to be stolen.

082216	Aluminum warning sign EU	= 1	£ 3.83	£ 4.59

EU Warning sign

2 YEARS

Warning signs must be attached to any electric fence every 50 metres wherever the fence borders a public right of way.

075881	Universal Warning sign	= 1	£ 2.91	£ 3.49

Testers

Would you like to prevent your animals from escaping as result of a lack of current? Would you like to know what caused the short-circuit in your fencing? Do you want to protect your energizer against a lightning strike? You can with our range of protectors and testers!

Fault Finder

2 YEARS

Pinpoints faults quickly and easily whatever type of wire or energizer is used. By simultaneously measuring the current flow and voltage, the Fault Finder will follow the current flow to any one of a series of faults.

509051	Fault Finder	= 1	£ 122.50	£ 147.00
202068	Battery Fault Finder	= 1	£ 1.33	£ 1.59

Fence Volt Meter

2 YEARS

Supplies exact information on the condition of your fence. Makes targeted trouble shooting very easy. Auto ON/OFF. Helpful tool for checking earthing system. Powered by one 9V battery (a life of 6-12 months). Displays fence voltage from 100V up to 12kV.

015033	Fence Voltmeter	= 1	£ 71.41	£ 85.69

Neontester

2 YEARS

A convenient tool for checking whether there is sufficient voltage at the electric fence. Not suitable for checking earth systems.

Range: Led 1, 1,0kV > 1,8kV, Led 2, 1,9kV > 2,5kV, Led 3, 2,6kV > 3,8kV, Led 4, 3,9kV > 4,8kV, Led 5, 4,9kV >

015019	Neontester	= 1	£ 27.99	£ 33.59

Live fence indicator

2 YEARS

The Live fence indicator is fitted to the fence and flashes with each pulse of the energizer so you can see whether the fencing is still working correctly.

511009	Live fence indicator	= 1	£ 35.99	£ 43.19

Electric fence Keyring Beeper

A very handy and simple tester which can be attached to a key ring. Hold it close to an electric fence and it will give a loud beep if the fence is active.

079667	Keyring Beeper	= 1	£ 7.49	£ 8.99

i Series Remote Controller

2 YEARS

- Energizer controller: Shows all your fence performance information in one convenient separate display box that can be placed up to 50m away from the energizer itself.

507002	Remote controller for i Series	= 1	£ 228.33	£ 274.00

Posts

Gallagher has two types of posts - posts for temporary fencing and posts for permanent fencing. The permanent posts - Gallagher post, Ecopost and Insultimber post - differ from each other in terms of quality, sustainability and price. We also have portable posts in various types and sizes, including plastic posts, fibre-glass posts and metal posts. Each type has its own application.

Insultimber (FSC®)

Self-insulated Timber (FSC®) for permanent fencing. Up to 70% more cost effective than traditional non-electric fencing. No insulators required. Insultimber (FSC®) does not require chemical treatment.

Gallagher Insulated Line Post

Gallagher Insulated Line Post (2,05m), unique and durable design and extremely suitable for permanent fencing. Full self-insulating and extremely quick and easy to set up. The conductor can be attached to various pre-shaped positions with LinePost Clips that are available separately. The maximum wire height is 1.50m. Product warranty: 10 years. Lifespan: 25 years or more!

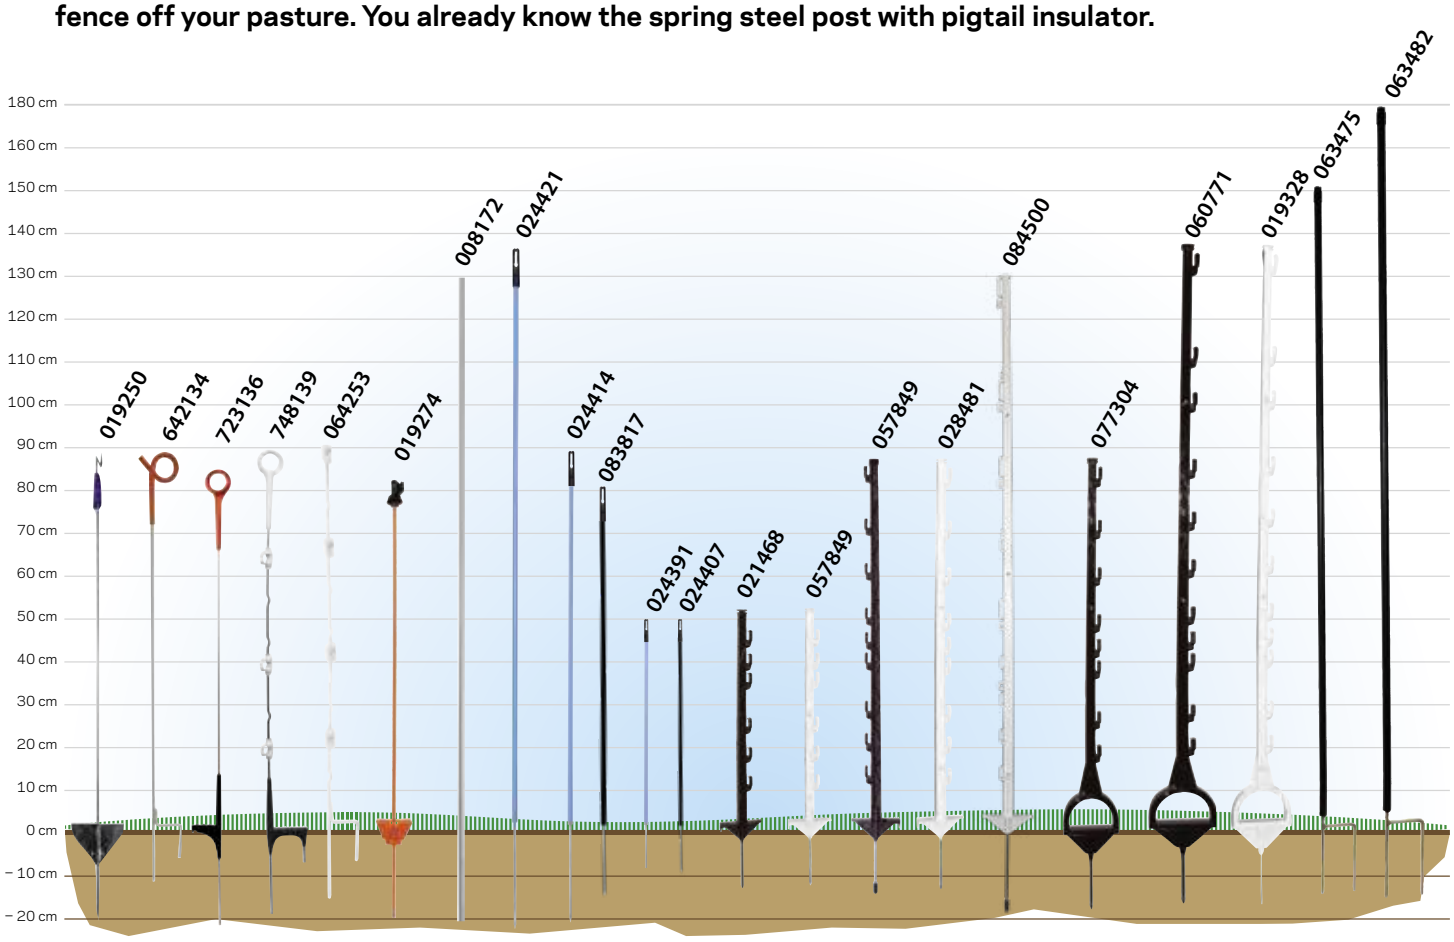
A portable post for any situation!

Light and easy to move

Gallagher also has portable posts in various types and sizes, including plastic posts, fibreglass posts and metal posts. They are all light-weight and easy to move. For example, we have plastic posts with wire holders so you do not need any loose insulators. The tread-in post has been developed specifically for portable horse fencing. You can take 50 of these smoothly finished posts in one hand when you fence off your pasture. You already know the spring steel post with pigtail insulator.



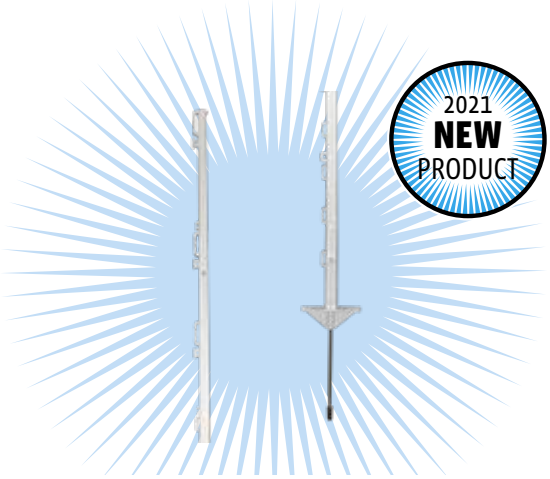
Multi Wire Ring Top Post

With several movable insulators, making it easy to put up fencing at the required height. Extremely suitable for fencing pastures with animals of different heights. The post has a patented top insulator that prevents the wire from wearing through.

748139	White 1,10m (10)	= 10	£ 52.49	£ 62.99

Plastic Wolf post 1,50m, white (10)

White plastic post with a total length of 1.55 m, with a maximum fencing height of 1.30 m. This post has 14 offsets that enable you to adjust the wire height and the number of wires to your needs. Suitable for plastic wire, cord and tape of up to 40 mm. Twist & lock system guarantees simple fixing.



084500	Plastic Wolf post 1,50m, white (10)	= 10	£ 23.33	£ 27.99

Ring Top post

The most popular option for dairy and beef cattle, practical design for stronger posts, no tangling and better grip in the ground.

723136	Orange - 1,00m	= 10	£ 30.83	£ 36.99

Pigtail post

Plastic coated spring steel post with UV stabilised plastic insulated orange pigtail insulator. If several wires are to be used, add screw-on insulator part no. 010950/010943. Maximum fence height: 0.85m.

642134	Orange - 1,00m	= 10	£ 23.99	£ 28.79
010950	Screw-on rod insulator black 4/10mm	= 20	£ 15.24	£ 18.29
010943	Screw-on rod Insulator white 6/14mm	= 10	£ 10.41	£ 12.49
010950	Screw-on rod insulator black 4/10mm	= 20	£ 15.24	£ 18.29

Quattro post

Very sturdy, lightweight spring steel post with 4 removable insulators. Maximum fence height 87.5cm. The 10cm double pointed foot makes it easy to install. White insulated coating for maximum visibility and to avoid shorting problems.

064253	White - 1,00m	= 10	£ 35.41	£ 42.49
067513	Isolator Quattro paal (10)	= 10	£ 2,52	£ 3,05

Spring steel pigtail post

Strong mild-steel post with blue top-insulator and large welded on foot for easy tread-in installation. Use part 004218 or 010950 if you use more wires. Maximum fence height: 0.88m.

019250	Steel - 1,10m	= 10	£ 48.33	£ 57.99

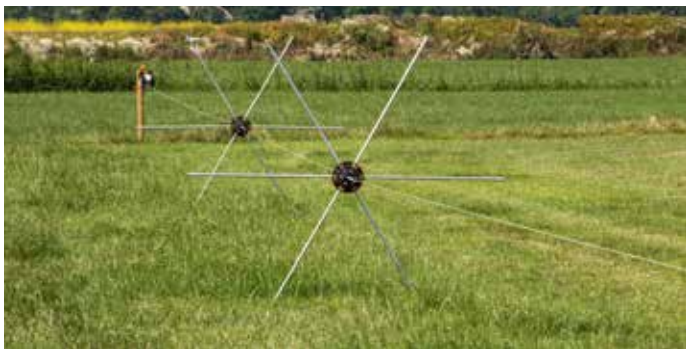
Tumble wheel

One person can move a whole fence within a matter of minutes using the tumble wheels. The strip grazing system reduces the grazing cycles and increases the yield. Ask your dealer for more information. Maximum fence height: 0.78m.



056388	Tumble wheel	= 5	£ 350.00	£ 420.00

Conducting wires

The conducting wire in electric fencing is of crucial importance, because it transports the current. Even though all conducting wires would appear to be the same, there is a big difference in terms of price and quality. There are also differences in use. The Gallagher range consists of tape, cord, plastic wire, Equifence and High Tensile. Each of them with their different conductivity, durability and design. Make sure you choose the right conducting wire for your use!

ElectroMax wire

15% more conductive than standard 2,5mm high tensile wire. Carries power further and handles shorts better. Patented zinc-alu alloy outer surface for up to 3 times longer life than standard high tensile wire.

069385	HT - ø2,65mm - 600m - 26kg	= 1	£ 70.83	£ 84.99

060498	Joint clamp angle with hex nut (100)	= 100	£ 91.67	£ 110.00

Zinc-alu-mag wire

Erecting a permanent fence becomes very simple with this aluminised fencing wire. Easier to bend than regular HT wire, but strong enough to keep sheep, cattle or game in/out. Very low resistance, which makes this wire ideal for long fence lines.

060412	MT - ø1,8mm - 500m - 10kg	= 1	£ 42.91	£ 51.49
036257	Tension spring for 2,5mm/2,65mm HT/EQ wire (1)	= 1	£ 12.66	£ 15.19

Vidoflex 12 TurboLine Plus

The most conductive TurboLine Plus poly wire -3.0mm- for portable fencing. The 6 stainless-steel wires and 4 galvanised copper wires conduct 80 times better than a standard poly wire. This TurboLine Plus model is 50% stronger, does not stretch and is even more clearly visible. Available in white. It has a 5-year UV warranty.

079377	White - 400m	= 1	£ 79.16	£ 94.99
060764	Vidoflex connector (4)	= 4	£ 4.16	£ 4.99

Duopack Vidoflex 9 TurboLine Plus

52% stronger than traditional polywire. Will not twist or kink when winding onto reels. Ideal for long portable fences, the patented mixed metal conductive wires carry the pulse 40 times better than standard PowerLine wire. Always use TurboLine products if fence > 500m.

TurboStar tape

TurboStar Tape is a premium 40mm tape which has the lowest resistance available today. It has 40 times better conduction than regular tape and will result in more power on your fence due to 10 stainless steel wires and 4 mixed metal wires. Post spacing up to 6m. The sturdy and breathable features prevent tensioning regularly. Available in green, terra and white on 200m rolls and white and terra on 350m rolls.

PROMOTION

TurboLine tape

Strongly conductive tape for portable cattle and horse fencing. Power guaranteed from beginning to end due to vertical stainless-steel wires. The blue colour makes this tape particularly suitable for keeping game animals away from your own animals, because wild animals see the colour blue particularly well.

079391	12,5mm - Blue - 200m	= 1	£ 24.99	£ 29.99
028979	For 12,5/20mm tape	= 5	£ 7.08	£ 8.49

Duopack TurboLine tape

12,5mm TurboLine Tape. The horizontal wires are interconnected at 13 cm intervals ensuring better conductivity. 40 times more conductive than standard polytape. Ideal for portable electric fences. Post spacing up to 5m. 200m and 400m rolls. Always use TurboLine tape if fence > 500m.

079438	Duopack 12,5mm - White - 2x400m	= 2	£ 58.33	£ 69.99
086231	TurboLine tape 12,5mm White 400m	= 1	£ 41.66	£ 49.99
079445	Duopack TurboLine tape 12,5mm White 2x200m	= 2	£ 31.66	£ 37.99
076232	TurboLine tape 12,5mm White 200m	= 1	£ 22.49	£ 26.99
028979	For 12,5/20mm tape	= 5	£ 7.08	£ 8.49

Reels

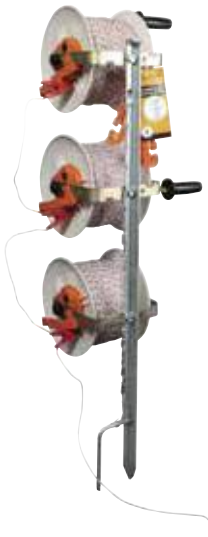
Reels are used for portable fencing to wind or unwind the fencing wire. It can be fixed with the reel corner post to produce a strong construction.

If you are going to put up electric fencing you simply need the right tools. Whether you need to tension High Tensile fencing, cut wire, or screw down insulators, the job is simple when you use Gallagher tools.

Triple Geared Reel Stand pre-installed

Triple Geared Reel Stand with 4.0m Vidoflex polywire.
Pre-assembled with post and three pre-wound Geared Reels (061139).

Post height 1070mm and reels are pre-wound with 400m Vidoflex polywire.
Suitable for containing all types of animals.
Multi reel connector (006345) available separately.



633046	Incl. 3 Geared reel and rope	= 1	£ 359.17	£ 431.00

Large geared reel 1200m

Heavy duty gearbox for easy winding, fast wind in (2.7:1). Large comfortable hand grip with knuckle guard for safer use.
Holds: 400m 12.5mm TurboLine tape, 400m 12,5mm PowerLine tape, 1000m Vidoflex 9 or
1200m Vidoflex 6.

016313	Large geared reel 1200m	= 1	£ 85.83	£ 103.00

Geared reel 500m

Equipped with an accelerator mechanism so the drum rotates three times faster than standard reels. Carry handle with knuckle guard. Locking ratchet. Long crank arm for better leverage. Wire loop for connecting power to wire/tape. Holds up to 500 metres of polywire or 200 metres of tape. Attachable to Reel Stand.

061139	Geared reel 500m	= 1	£ 74.33	£ 89.19

Medium reel 500m

Carry handle with knuckle guard to protect hands. Locking ratchet. Long crank arm for better leverage. Wire loop for connecting power to wire/tape. Holds up to 500 metres of polywire or 200 metres of tape. Can be attached to Reel Stand. Fully galvanized frame.

061115	Medium reel 500m	= 1	£ 51.24	£ 61.49

Econoreel 500m

A strong and durable reel with ratchet mechanism for winding up and unwinding polywire. Suitable for up to 500m polywire. Equipped with insulated handle. Hooks directly to fence or use Reel Stand.

046167	Econoreel 500m	= 1	£ 32.91	£ 39.49

Geared reel pre-installed Polywire 500m

Reel with gear mechanism. Large handle with knuckle guard. Includes 500 m polywire.

061184	Geared reel pre-installed Polywire 500m	= 1	£ 82.50	£ 99.00

Reel 400m

Convenient plastic reel with ratchet for 400 metres of polywire. Detachable drum.

008919	Reel 400m	= 1	£ 25.66	£ 30.79
009145	Spare drum for Reel 400m	= 1	£ 14.58	£ 17.49

Reel 200m

Low cost convenient plastic reel with ratchet for 200 metres of polywire.

008933	Reel 200m	= 1	£ 18.66	£ 22.39

Reel/Termination post

This post can be used together with a max. of 5 reels or insulators. In combination with the insulators, this reel corner post is perfect as the start or end post of portable fencing. In combination with the reels it is really easy to put up portable fencing.

081967	Supports 5reels/insulators - 2,00m	= 1	£ 19.16	£ 22.99
022014	Reel/Termination post fits 3 Reels/3 Insulators 1,25m	= 1	£ 33.83	£ 40.59
082766	Reel/Termination post Reel bracket (5)	= 5	£ 20.49	£ 24.59
022205	Reel/Termination post Support bracket	= 1	£ 21.49	£ 25.79
006345	Multi reel connector set	= 1	£ 19.99	£ 23.99

Insulators

With our range of insulators we provide a solution for every type of fencing.

Whether you use tape, cord, plastic wire, EquiFence or aluminium-coated wire, Gallagher has it all. Our insulators stand out in terms of price, quality and durability.

Wire clip insulator for Line Post

You need this wire clip if you want to fit fencing wire or cord of up to 8mm (Gallagher EquiFence/permanent cable) to a Line Post. These clips have been developed especially for the Gallagher Line Post.

082285	Wire clip insulator for Gallagher Line Post (100)	= 100	£ 34.16	£ 40.99
744346	Wire clip insulator for Gallagher Line Post (20)	= 20	£ 6.66	£ 7.99

XDI screw-in insulator wood

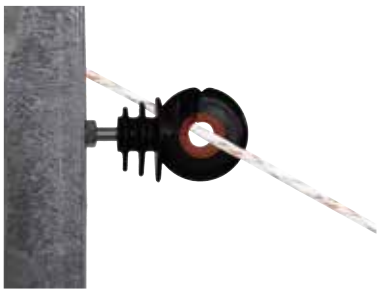
Improved screw-in insulator with unique advantages over traditional black screwing insulators. Much stronger due to the new technology.

060788	For (poly) wire and rope	= 250	£ 59.16	£ 70.99
025527	XDI screw-in insulator (125)	= 125	£ 48.49	£ 58.19
065059	XDI screw-in insulator (75)	= 75	£ 31.66	£ 37.99
025510	XDI screw-in insulator (25)	= 25	£ 12.08	£ 14.49
077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09
053933	Drill chuck Basic	= 1	£ 6.66	£ 7.99

www.gallagher.eu

XDI bolt-on insulator M6x23mm metal

High quality Bolt-on insulator with metal core. The orange ring guarantees an equal distance between the insulator and the conductor. Suitable for (poly) wire or cord on a steel post, like the Termination post (022014/022236). (External thread length 25mm M6 incl. 2xnut, total lenght 33mm).



079094	For (poly) wire and rope	= 125	£ 53.83	£ 64.59
057795	XDI bolt-on Insulator (10)	= 10	£ 7.16	£ 8.59

Screw-in insulator wood

Low-priced, high quality screw-in insulator without metal core. Suitable for wooden posts.

060894	For (poly) wire and rope	= 75	£ 15.99	£ 19.19
077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09
053933	Drill chuck Basic	= 1	£ 6.66	£ 7.99

Screw-in Insulator Promopack

With metal core. High-quality black plastic. For wooden posts. Suitable for (poly) wire and cord.

071074	Screw-in Insulator in bag	= 100	£ 11.99	£ 14.39
077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09
053933	Drill chuck Basic	= 1	£ 6.66	£ 7.99

Screw-in insulator wood small

Solid High quality screw-in insulator without metal core, therefore no short circuiting possible. For adding a wire to a wooden fence post.

011193	For wire and rope	= 250	£ 85.00	£ 102.00
040711	screw-in insulator small (125)	= 125	£ 43.66	£ 52.39
004089	Screw-in insulator small (25)	= 25	£ 11.16	£ 13.39
077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09
053933	Drill chuck Basic	= 1	£ 6.66	£ 7.99

Screw-in insulator super in bucket (175)

High quality screw-in insulator without metal core, therefore no short circuiting possible. For adding a wire to a wooden fence post. Type 009008 also suitable for 12,5mm tape.

079537	For wire, rope and 12,5mm tape	= 175	£ 33.33	£ 39.99
077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09

Screw-in insulator wood Super

High quality screw-in insulator without metal core, therefore no short circuiting possible. For adding a wire to a wooden fence post. Type 009008 also suitable for 12,5mm tape.

011209	For wire, rope and 12,5mm tape	= 250	£ 126.67	£ 152.00
040728	Screw-in insulator super (100)	= 100	£ 52.49	£ 62.99
009008	Screw-in insulator super (25)	= 25	£ 14.16	£ 16.99
077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09

W-insulator Super

Made from high density, sunlight resistant polyethylene plastic. Large heavy duty shield eliminates power leakage. Also suitable for guiding wire around a corner post.

067617	For rope and Equifence/white	= 175	£ 115.83	£ 139.00
021055	W-insulator super black (175)	= 175	£ 115.00	£ 138.00
067612	W-insulator super white (25)	= 25	£ 19.83	£ 23.79
067605	W-insulator super black (25)	= 25	£ 19.83	£ 23.79
050000	Gallagher Screws 4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

W-insulator Small

Made from high density, sunlight resistant polyethylene plastic. Large heavy duty shield eliminates power leakage. Suitable for guiding wire around a corner post.

028498	For polywire and wire / black	= 175	£ 90.83	£ 109.00
006734	W-insulator small black (25)	= 25	£ 14.99	£ 17.99
050000	Gallagher Screws 4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

Claw Insulator concrete

Insulator for permanent fencing with flat back for stable fitting on a concrete post. Suitable for HT wire and Vidoflex.

709048	For polywire and wire / black	= 25	£ 19.16	£ 22.99

Corner insulator Extra High Voltage

Designed for high powered fencing systems and areas where insulation is critical. Insulation ribs provide 2 x the insulation performance of previous models to reduce chances of stray voltage around critical areas. The streamlined design allows a comfortable positioning in hand during the installation. The wire can be easily cut away for product reuse.

100003	For rope and wire / white	= 100	£ 155.83	£ 187.00
100002	Corner insulator Extra High Voltage white (10)	= 10	£ 19.49	£ 23.39

Strain insulator S reinforced

Suitable for short strains and semi-permanent short fences. Available in plastic and super strong polycarbonate

012022	For rope and wire / white	= 100	£ 135.00	£ 162.00
678061	Strain insulator reinforced black (100)	= 100	£ 135.00	£ 162.00
011032	Strain insulator reinforced white (5)	= 5	£ 8.99	£ 10.79
678023	Strain insulator reinforced black (5)	= 5	£ 8.74	£ 10.49

Strain insulator S

Suitable for short strains and semi-permanent short fences. Available in plastic and super strong polycarbonate

012015	For rope and wire / black	= 100	£ 85.00	£ 102.00
011025	Strain insulator black (5)	= 5	£ 5.16	£ 6.19

Porcelain strain/corner insulator

A porcelain corner insulator to strain the wires on the corner posts

053506	For wire	= 60	£ 89.17	£ 107.00
015139	Porcelain strain/corner insulator (6)	= 6	£ 12.83	£ 15.39

Porcelain corner insulator

A porcelain End-strain Insulator for high tensions

015141	For wire	= 60	£ 50.99	£ 61.19
015146	Porcelain corner insulator (6)	= 6	£ 6.16	£ 7.39

High Strain insulator Kit with stainless steel rope

Simplest option for end strain insulation. Long life Super Strain Insulator with pre-attached stainless steel rope. Simple install, no wire tying or special tools required. Fits up to 200mm/8" pos

079483	For rope and wire / white	= 5	£ 15.83	£ 18.99

Roller screw-in insulator

Innovative Gallagher design. Easy to install. Suitable for poly wire and rope. The special design means the wire always returns to the roll.

029013	For polywire and rope	= 5	£ 7.91	£ 9.49

Rope tensioner

For easy tensioning of rope. Easy release thumb catch. For use in combination with the roller screw-in insulator. (# 029013) or the strain insulator (# 011025/011032). Comes as standard with a roller screw-in insulator.

028955	Rope tensioner	= 1	£ 12.74	£ 15.29

Roller screw-in insulator

For use with Termination post (022014/022236) or for fixing to a wooden fence post. Only suitable for poly wire.

010707	For polywire	= 5	£ 7.16	£ 8.59

Roller bolt-on insulator

For use with Termination post (022014/022236). Only suitable for poly wire. External thread length 28mm. M8 incl. 2 x nut.

010714	For polywire	= 5	£ 8.74	£ 10.49

Clips for Insultimber/Ecopost

We recommend the use of Part.No 011056 for fixing wire to an Insultimber post or Gallagher Ecopost. Use Part.No 011063 with 1 metre droppers. You can tighten the clips using the wire twister (part.no 005232).

024704	Long 150mm / for wire	= 1000	£ 201.67	£ 242.00
011063	Clips long for Insultimber/Ecopost (50)	= 50	£ 13.91	£ 16.69

Clips for Insultimber/Ecopost

We recommend the use of Part.No 011056 for fixing wire to an Insultimber post or Gallagher Ecopost. Use Part.No 011063 with 1 metre droppers. You can tighten the clips using the wire twister (Part.No 005232).

024698	Short 100mm / for wire	= 1000	£ 195.00	£ 234.00
011056	Clips short for Insultimber/Ecopost (25)	= 25	£ 10.08	£ 12.09

TurboLine Line Post tape clip

Fast install, easy to use no tools required. Positive locking and quick release to enable re-tensioning of tape. Soft rubber pads lock tape in place to prevent tape movement and fraying.

082278	TurboLine Tape clip insulator for Gallagher Line Post (100)	= 100	£ 86.67	£ 104.00
747033	TurboLine Tape clip insulator for Gallagher Line Post (12)	= 12	£ 12.33	£ 14.79

TurboLine Horse corner/strain insulator

The new very innovative robust Corner Insulator. Has a lot of advantages compared to the traditional insulators. A unique sub frame for optimal strength and fixation at the post. Pre mounted rubber grip for best tape fixation. Can be installed with only one drill bit. A unique slot to strain and re-strain your tape. The optional metal plate (art. 708027) can be used as a tape connector and gate anchor.

701042	TurboLine Horse corner/strain Insulator (30)	= 30	£ 148.33	£ 178.00
701028	TurboLine Horse corner/strain insulator (5)	= 5	£ 29.41	£ 35.29
708027	Connection plate TurboLine Horse corner/strain Insulator (5)	= 5	£ 11.08	£ 13.29
050000	Gallagher Screws 4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

TurboLine Horse insulator

Insulator with soft faces to lock the tape between two rubber sleeves (patented system). Fixes the tape with 1 click and prevents wearing guaranteeing a long life for your tape. Additional screw can be used to tighten the insulator even more.

699066	For up to 40mm tape	= 100	£ 95.00	£ 114.00
699004	TurboLine Horse insulator (20)	= 20	£ 19.66	£ 23.59
050000	Gallagher Screws 4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

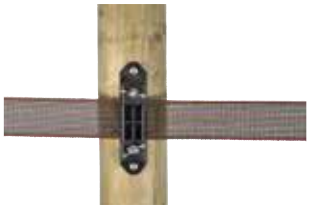
TurboLine tape insulator

Insulator with soft faces to lock the tape between two rubber sleeves (patented system) to prevent the wear off guaranteeing a long life for your tape.

021482	For up to 40mm tape	= 100	£ 62.49	£ 74.99
011087	TurboLine Tape insulator (20)	= 20	£ 14.83	£ 17.79
050000	Gallagher Screws 4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

TurboLine corner/strain insulator

Specially designed corner insulator in high quality plastic which secures the tape between 2 rubber sleeves (patented system), guaranteeing long life for your tape. Use the stainless steel connecting plate (Part No. 010745) for end (gate) posts to ensure good connection between the tapes.



043880	For up to 40mm tape	= 30	£ 82.50	£ 99.00
016702	TurboLine corner/strain insulator with wingnut (5)	= 5	£ 15.83	£ 18.99

PowerLine tape insulator

Insulator used to fix 40mm tape to wooden fence post. Can be stapled, nailed or screwed to post. The tape is very easy to fix.

040674	For up to 40mm tape	= 125	£ 43.41	£ 52.09
011094	PowerLine Tape insulator (25)	= 25	£ 9.66	£ 11.59
050000	Gallagher Screws 4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

XDI offset screw-in insulator wood 18cm

Innovative Gallagher design. Much stronger than the standard offset screw-in insulator thanks to a new technique, and more durable thanks to its metal core. The chance of short-circuits is zero. The orange plastic section serves as a wear indicator. To be used with wooden posts. Distance 18cm.

042647	For (poly) wire and rope	= 100	£ 124.17	£ 149.00
028993	XDI offset screw-in insulator 18cm (10)	= 10	£ 14.83	£ 17.79

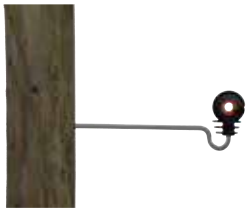
XDI offset screw-in insulator wood 10cm

Innovative design. Much stronger than the standard offset screw- in insulator thanks to a new technique. More durable thanks to its metal core. The chance of short-circuits is zero. The orange plastic section serves as a wear indicator. To be used with wooden posts. Distance 18cm.

077274	For (poly) wire and rope	= 100	£ 47.49	£ 56.99
075904	XDI offset screw-in insulator 10cm (20)	= 20	£ 11.24	£ 13.49

XDI offset screw-in insulator wood bended 18cm

High quality offset insulator (18cm) with metal core, helps prevent damage to non-electric fences. The orange ring guarantees an equal distance between the insulator and the conductor. Suitable for (poly) wire or cord.



057818	XDI offset screw-in insulator bended 18cm (100)	= 100	£ 106.67	£ 128.00
057801	XDI offset screw-in insulator bended 18cm (10)	= 10	£ 13.08	£ 15.69

XDI offset bolt-on insulator metal 20cm/M6

Innovative Gallagher design. Much stronger than the standard offset insulator due to a new technique, and more durable due to its metal core. The chance of short-circuits is zero. The orange plastic section serves as a wear indicator. (Total lenght 200mm, external thread length 125mm M6 incl. 2xnut/washer).

029006	For (poly) wire and rope	= 10	£ 26.58	£ 31.89

Offset screw-in insulator wood 10cm

Solid high quality offset screw-in insulator (10cm) for wooden posts. Without metal core. Suitable for (poly) wire and cord.

082711	For (poly) wire and rope	= 90	£ 41.66	£ 49.99
072491	Offset screw-in insulator 10cm (20)	= 20	£ 9.91	£ 11.89

Fence Insulator for pos/neg system

This insulator has been developed especially for fitting on a spacer insulator. With this combination you can quickly and easily create a plus-minus fencing on your fence to keep cats out or in your garden.

077335	For polywire	= 30	£ 6.91	£ 8.29

Mounting bracket 40/60mm

Mounting bracket. Fits on every garden wire enclosure. Incl. a connection point suitable for M6 and M8 thread insulators to also protect your garden wire enclosure. Fitted with a rubber insert to prevent damage to the post.

008780	Supports M6 and M8	= 5	£ 27.08	£ 32.49

Offset screw-in insulator 20cm

For electrifying non-electric fences quickly and effectively. Distance 20cm. With insulator suitable for wire and rope up to 9mm.

009350	For polywire and rope	= 10	£ 18.74	£ 22.49
007516	Offset bolt-on insulator 20cm/M6 (10)	= 10	£ 26.41	£ 31.69

Live Tip offset insulator wood 26cm

With an electrified tip and zero leakage through the post, the live tip offsets are an effective, new option for protecting existing fences. 10 year product warranty.

006190	For wire and rope	= 20	£ 54.58	£ 65.49
006183	Live Tip offset insulator 16cm (20)	= 20	£ 47.33	£ 56.79

Live Tip Offset bolt-on insulator 26cm/M6

2021 NEW PRODUCT

The bolt on live tip insulator is the perfect solution for all heavy duty needs. The live tip ensures that the insulator will also provide a shock to any curious critter that dares touch it. Being able to bolt straight through any existing posts or panels regardless of material means you can electrify an existing fence. An excellent solution for all heavy duty fencing requirements.

752334	Live Tip Offset bolt-on insulator 26cm/M6 (20)	= 20	£ 60.83	£ 72.99

Live Tip offset insulator steel post 16cm

With an electrified tip and zero leakage through the post, the live tip offsets are an effective, new option for protecting existing fences. 10 year product warranty.

006145	For wire and rope	= 20	£ 54.99	£ 65.99

Offset Pigtail insulator wood 40cm

For electrifying specific existing non-live fences quickly. Available in 2 lengths: 17.5cm or 40cm. Very suitable for rope and tape. Pre-drill hole and staple the offset to the wooden post.

720135	Offset Pigtail insulator 40cm terra (10)	= 10	£ 23.58	£ 28.29
010998	Offset Pigtail insulator 40cm white (10)	= 10	£ 23.58	£ 28.29

Offset Pigtail insulator wood 17,5cm

For electrifying specific existing non-live fences quickly. Available in 2 lengths: 17.5cm or 40cm. Very suitable for rope and tape. Pre-drill hole and staple the offset to the wooden post.

720234	Offset Pigtail insulator 17,5cm terra (10)	= 10	£ 20.74	£ 24.89
010981	Offset Pigtail insulator 17,5cm white (10)	= 10	£ 20.74	£ 24.89

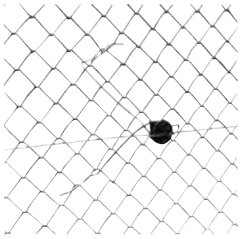
Top mount double end Ring Top offset 80cm

By using this insulator, animals in adjacent pastures cannot come into contact with each other, which is ideal for keeping animals of a different gender apart. The insulator has also been designed to prevent injury if an animal comes into contact with it.

751528	Top mount double end Ring Top offset 80cm white (5)	= 5	£ 21.49	£ 25.79
751924	For wire and rope / terra	= 5	£ 21.49	£ 25.79

Offset Chainlink Insulator cainlink 30cm

For protecting and electrifying chain link netting. The completely galvanized clips are easy to fit to any type of netting. Pin lock insulator makes fixing the wire easy. 32cm long.



010912	For polywire / black	= 25	£ 68.33	£ 81.99

Offset Pinlock Insulator wire 30cm

For electrifying existing or run down fences. Easy to fix. 30cm long. Large spark guard. Pin lock for easy installation and removal of wires.

659046	For polywire / black	= 25	£ 80.24	£ 96.29

Joint clamp angle

Essential for ensuring there is no loss of conductivity at connections. Effective animal control is dependant on optimum conductivity around the power fence. Heavily galvanized for durability and long life. Suitable for all size wires and rope. Ensures effective electrical joints in the system.

060498	Angle with hex nut	= 100	£ 91.67	£ 110.00

Joint clamp angle

Essential for ensuring there is no loss of conductivity at connections. Effective animal control is dependant on optimum conductivity around the power fence. Heavily galvanized for durability and long life. Suitable for all size wires and rope. Ensures effective electrical joints in the system.

603964	Angle with wingnut	= 100	£ 109.17	£ 131.00
010868	Joint clamp angle with wingnut (10)	= 10	£ 12.08	£ 14.49

Screw-on rod insulator

For adding extra wire to round portable posts. Ideal for steel pigtail posts.

010943	For 6/14mm post / white	= 10	£ 10.41	£ 12.49
010936	Screw-on rod insulator green 8,5/13mm	= 20	£ 11.83	£ 14.19
011230	Screw-on rod Insulator green 8,5/13mm	= 250	£ 99.17	£ 119.00
010950	Screw-on rod insulator black 4/10mm	= 20	£ 15.24	£ 18.29

Joint clamp

Essential for ensuring there is no loss of conductivity at connections. Effective animal control is dependant on optimum conductivity around the power fence. Heavily galvanized for durability and long life. Suitable for all size wires. Ensures effective electrical joints in the system. Bobbin clamp also suited for rope.

603568	Bobbin round with hex nut	= 100	£ 105.00	£ 126.00
010851	Joint clamp bobbin with hex nut (10)	= 10	£ 12.08	£ 14.49

Tension spring

The tension spring neutralises the tension difference in the wire which is caused by fluctuations in temperature. It keeps the wire evenly tensioned during summer and winter, which means you can double (up to 15m) the distance between the posts. Suitable for 2.5mm and 2.65mm HT wire and EquiFence. Maximum tension strength 200kg. Stainless steel, lenght spring 345mm, Productwarranty 10 Year.

036257	For HT/EQ ø2,5mm/2,65mm	= 1	£ 12.66	£ 15.19

Tension spring

The tension spring neutralises the tension difference in the wire which is caused by fluctuations in temperature. It keeps the wire evenly tensioned during summer and winter, which means you can double (up to 15m) the distance between the posts. Suitable for 1.6mm and 1.8mm wire. Maximum tension strength 85kg. Stainless steel, lenght spring 155mm, Productwarranty 10 Year.

004133	For ø1,6mm/1,8mm wire	= 1	£ 5.49	£ 6.59

Wire tensioner

Use of this unique tensioner means that the wire does not have to be cut to strain it. Consequently, the power in the wire will be uninterrupted. Strong, lightweight, rust resistant construction. Can be used to join wires.

021475	Wire tensioner	= 25	£ 79.17	£ 95.00
010882	Wire tensioner (3)	= 3	£ 11.66	£ 13.99
029044	Wire tensioner Basic	= 1	£ 12.83	£ 15.39

Insulated End Strainer

The wire tensioner has a streamlined design with super-strong polycarbonate to prevent rust. A wire clip has been integrated into the design to make it easy to fit an earth cable or connectors.

743134	Insulated End Strainer	= 20	£ 111.67	£ 134.00
618005	Insulated End Strainer fastening cable (2)	= 2	£ 16.66	£ 19.99
695303	Handle for tensioner	= 1	£ 16.74	£ 20.09

Clip lock strainer

Clip lock strainers can be placed in the fence line during or after building your fence. For easy straining and re-straining your wires.

056095	Clip lock strainer	= 2	£ 10.41	£ 12.49

Handle for tensioner

Handle specially made for end-strain kit and clip lock strainer, very easy to use.

695303	Handle for tensioner	= 1	£ 16.74	£ 20.09

Connectors

Connectors are crucial in electric fencing. They are relatively small parts, but essential to proper current conductivity. Knotting wire together produces a loss of power, rendering the fencing ineffective. Fitting a good connector represents a minor investment, but you do have perfect fencing!

Rope connector with wingnut

This stainless steel clamp provides a good conductive connection between Rope/cord or Vidoflex.

075928	Rope connector with wingnut	= 4	£ 13.33	£ 15.99

Tape joiner

Innovative Gallagher design. For connecting and tensioning tape up to 20mm. Easy to install using the rucksack clasp principle. Now it is easy to connect tension and release tape.

028979	For 12,5/20mm tape	= 5	£ 7.08	£ 8.49

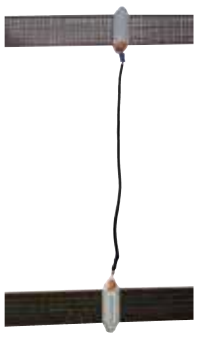
Vidoflex connector

This stainless steel clamp provides a good conductive connection between polywire. Easy to use.

060764	Vidoflex connector	= 4	£ 4.16	£ 4.99

Tape connector

Double connector for connecting two rows of tape. Length cable: 60cm.



055333	Tape / tape connector 60cm	= 1	£ 8.99	£ 10.79

Rope connector

This stainless steel clamp provides a good conductive connection between Rope or Vidoflex.

071159	Rope connector	= 25	£ 45.41	£ 54.49
019342	Rope connector (4)	= 4	£ 13.33	£ 15.99

Gate break joiner

Tape clamp for fixing 40mm tape to a gate handle. Can be used with any gate handle.

010769	Gate break joiner for 40mm tape	= 4	£ 9.91	£ 11.89

Tape joiner

To be used in combination with part no. 016702 or for joining and/or connect 20/40mm tape. Gives excellent mechanical and electrical connection. Made from non-rusting stainless steel.

010745	For 20/40mm tape	= 5	£ 13.74	£ 16.49

Tape joiner

Innovative Gallagher design. For connecting and tensioning from 20mm up to 40mm tape. Easy to install using the rucksack clasp principle. Now it is easy to connect tension and release tape.

028962	For 20/40mm tape	= 5	£ 11.08	£ 13.29

Tape connector

Single connector for perfect connection from the energizer to the tape fence line. Length cable: 130cm.

055340	Tape / energizer connector	= 1	£ 8.99	£ 10.79

Gallagher has several options for making a gate. Are you familiar with the Gallagher multi-wire gate set? They are ideal! It allows you to open and close the gate with one hand. We also have a tough electric gate for permanent fencing.

Electrified steel gate

Adjustable, maintenance free gate, fully electrified. Suitable for all permanent fences incl. tape. Will fit gates from 2.5m to 4.5m. Height: 1.0m.

001064	Gate width 2,5m up to 4,5m	= 1	£ 258.33	£ 310.00

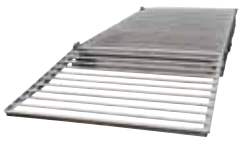
Drive thru Electro gate

A complete gate which can be erected anywhere where you have to drive frequently through a gate. Vehicles can push the gate open and the spring loaded gate closes automatically.

054923	Gate width 5,0m	= 1	£ 207.50	£ 249.00
004164	Drive thru Electro gate 3,7m	= 1	£ 174.17	£ 209.00

Mobile fence grate

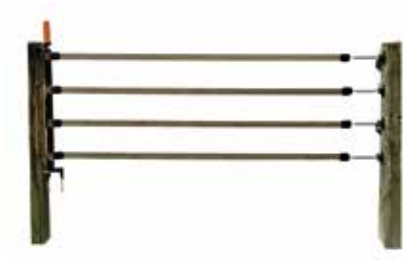
This cattle grid is ideal to move. The grid can be moved because it has connection points for a forklift truck. As there is current on the grid, cyclist can cycle over it, but the animals remain in the fenced-in area. This portable electric grid is available in other sizes upon request.



075935	Mobile fence grate 2,4x1,3m	= 1	£ 1,745.83	£ 2,095.00

Multi strand gate kit

The most complete and easy to use all-in-one multi strain electric gate on the market. Provides a low cost gate solution for practically any width gateway. Comes with 40mm tape.



718842	4x 40mm tape terra / 6m	= 1	£ 48.91	£ 58.69
718040	Multi strand gate kit 4x12,5mm tape white 6m	= 1	£ 48.91	£ 58.69

Retractable auto reel

With the retractable gate, it is easy to create a passage in the fencing. The major benefit is that you are no longer troubled by wires hanging on the ground. The retractable gate is easy to fit and is supplied with a mounting bracket and a gate handle.

083084	Gate width 18m cord terra	= 1	£ 99.17	£ 119.00

Retractable auto reel

Gate system with retractable reel, it automatically rolls and unrolls a walk way up to 15m. Simple to install and easy to handle. Comes complete with gate handle and multi directional mounting bracket. Available in white and terra.

010844	Gate width 15m / tape 40mm white	= 1	£ 99.17	£ 119.00
054954	Retractable auto reel terra 15m	= 1	£ 99.17	£ 119.00

Spring gate set

Adaptable, gate closure. Complete set, maximum width 5 m. Not recommended for use with horses.

009084	Gate width 5m	= 1	£ 15.83	£ 18.99
016405	Spring gate set white 5m	= 1	£ 19.99	£ 23.99

Elastic rope gate set

Complete gate set (conductive cord, terra), to quickly and easily create a passage in a (cord) fence. Easy to open and close by pick up the gate handle in or out of the included gate handle anchor. Suitable for gate passages starting from 3 up to 6 meters wide.

072354	Gate width 3 up to 6m / terra	= 1	£ 29.99	£ 35.99
016412	Elastic rope gate set white 3/6m	= 1	£ 29.99	£ 35.99
640556	Elastic rope gate set white 6,5/11m	= 1	£ 32.91	£ 39.49

Elastic rope

Strong elastic cord for semi-permanent horse and cattle fences. Also suitable for creating passageway's. Can be stretched up to 2x its own length. With UV protection for long life. Clearly visible.

891064	Elastic rope white 50m	= 1	£ 118.33	£ 142.00
891163	Elastic rope terra 50m	= 1	£ 118.33	£ 142.00

Batt-Latch Gate Release Timer

Automatic gate opener, including self-closing gate spring. This system is ideal for opening a gate at a pre-set time. Extremely suitable for dairy farming and strip grazing. The system works on a battery with support from solar panels, ensuring the battery lasts longer.

077441	Automatic gate release	= 1	£ 307.50	£ 369.00

Soft touch gate handle

New design gatehandle, Unique rubber soft touch grip.

055722	Soft touch gate handle orange for rope/wire (Stainless steel) (4)	= 4	£ 13.58	£ 16.29
697000	Soft touch gate handle orange for rope/wire (Stainless steel) (1)	= 1	£ 4.74	£ 5.69
058198	Soft touch gate handle terra for rope/ wire (Stainless steel) (4)	= 4	£ 13.58	£ 16.29
057979	Soft touch gate handle terra for rope/ wire (Stainless steel) (1)	= 1	£ 4.74	£ 5.69
010769	Gate break joiner 40mm tape (4)	= 4	£ 9.91	£ 11.89

Soft touch gate handle

New design gatehandle, suited specially for tape. Unique rubber soft touch grip.

055715	Soft touch gate handle orange for tape (Stainless steel) (4)	= 4	£ 13.91	£ 16.69
696003	Soft touch gate handle orange for tape (Stainless steel) (1)	= 1	£ 4.74	£ 5.69
058204	Soft touch gate handle terra for tape (Stainless steel) (4)	= 4	£ 13.91	£ 16.69
057986	Soft touch gate handle terra for tape (Stainless steel) (1)	= 1	£ 4.74	£ 5.69

Gate handle

Heavy duty, durable gate handles in black and orange. Good visibility and large protective shields. 007585 has a compression hook for easy use. 010769 for attaching tape to a gate handle.

010776	Basic gate handle / orange	= 1	£ 3.49	£ 4.19
010783	Gate handle black (1)	= 1	£ 3.49	£ 4.19

Dual Purpose Portable handle

Heavy duty, durable gate handles in black and orange. Good visibility and large protective shields. 007585 has a compression hook for easy use. 010769 for atta- ching tape to a gate handle.

738321	Dual purpose handle	= 6	£ 15.83	£ 18.99

Compression gate handle

Gate handle with compression hook for easy use.

PROMOTION

072408	Gate handle with N-hook / black	= 10	£ 11.99	£ 14.39
007585	Compression gate handle N-hook black (1)	= 1	£ 2.66	3.19

Gate handle anchor

Innovative Gallagher design. For attaching a gate handle. Stronger than all other gate handle anchors thanks to the new technique. Made of high-quality materials. Includes connector option for 1,6mm earth cable.

028986	2-way / screw-in with leadout conn	= 5	£ 9.16	£ 10.99

Gate handle anchor

Innovative Gallagher design. Anchor to attach a gate handle to steel posts. Stronger than all other gate handle anchors thanks to the new technique. Made of high quality materials.

060658	Bolt-on with leadout conn	= 5	£ 8.33	£ 9.99

Gate handle anchor

For connecting a gate handle, with galvanized joining plate. We recommend the use of wire clamp (part no. 010851) to guarantee an optimum connection.

010905	2-way / screw-in	= 4	£ 12.74	£ 15.29

Gate handle anchor

For connecting a gate handle.

010738	2-way / screw-in / basic	= 4	£ 8.91	£ 10.69

Gate handle anchor

Gate anchor with 3 anchor points for Gallagher gate handles, ideal in multi-paddock situations. Power connects to bolt from below the plate. Comes with the 3mm galvanized plate.

021451	3-way / screw-on with leadout conn	= 4	£ 12.74	£ 15.29

www.gallagher.eu

Netting

Gallagher has wide range of netting for ideal and reliable portable/moveable fencing. Whether you need netting for sheep, chickens, rabbits, cats, dogs or goats, we've got it. We would also like to introduce you to our ideal fencing for sheep and cattle. The SmartFence 2.0 is our pride and joy - the perfect alternative to standard fencing netting.

Netting key
We have a wide range of netting. Please use the key to find the right
netting for you. It enables you to find the specifications of the netting.

For example:

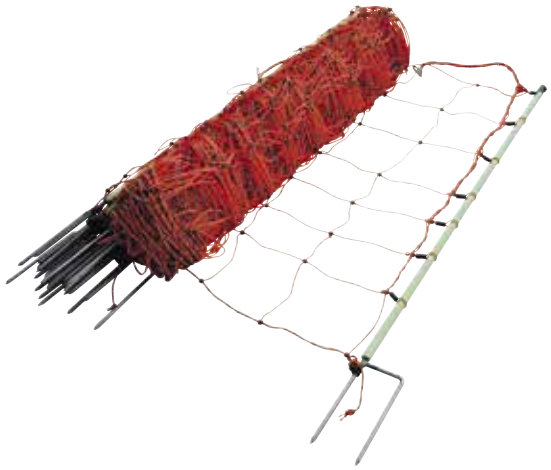
Orange 90 / 1 W 14 / G 50 m

1 2 3 4 5 6 7

1 the colour of the netting
2 the height of the netting (cm)
3 1= single pin
2 = double pin
4 with a reinforced bottom wire
5 the number of posts
6 the colour of the posts: G=green / W=white / B=black
7 length of netting

EuroNetz Sheep netting

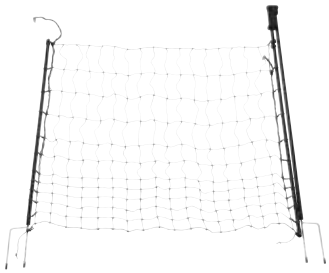
Complete and easy to use portable netting for sheep and lambs. If the pasture is bordered with ditches, netting offers even the newborn lambs maximum safety. Length: 50m. It is easy to connect nets together.



022175	EuroNetz Sheep netting, Orange 90/2-14/G-50m	= 1	£ 106.67	£ 128.00
075768	EuroNetz Sheep netting, Orange 90/2W14/G-50m	= 1	£ 128.33	£ 154.00
075386	EuroNetz Sheep netting, Orange 90/2-14/W-50m	= 1	£ 74.17	£ 89.00

EuroNetz Gate for electric netting

A gate set for convenient opening or closing of net fencing. Easy to use and to connect to your net fencing.



079360	Entry gate (120x100cm)	= 1	£ 60.00	£ 72.00

EuroNetz Sheep netting

Complete and user-friendly portable fencing netting for sheep and lambs. Also suitable as fencing near ditches so new-born lambs can stay in the pasture in complete safety. Length: 50m. Includes 14 posts with a single pin that are incorporated into the netting. Several nets are easy to connect together.

075379	EuroNetz Sheep netting, Orange 90/1-14/W-50m	= 1	£ 65.83	£ 79.00
022106	EuroNetz Sheep netting, Orange 90/1-14/G-50m	= 1	£ 82.50	£ 99.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

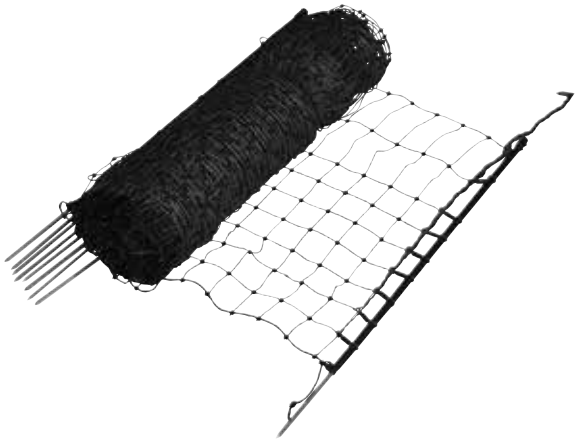
EuroNetz Goat netting

Complete and easy to use portable netting for goats and lambs. If the pasture is bordered with ditches, netting offers even the newborn lambs maximum safety. Length: 50m. It is easy to connect nets together.

022212	EuroNetz Goat netting, Orange 105/2-14/G-50m	= 1	£ 126.67	£ 152.00
022168	EuroNetz Goat netting, Orange 105/1-14/G-50m	= 1	£ 110.83	£ 133.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

EuroNetz Rabbit netting/Hobby netting

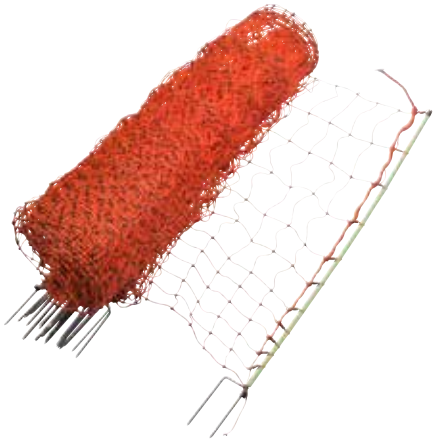
Fencing netting for rabbits and other small pets. Can also be used for an allotment or a field. Complete and easy to attach to several other nets. Length 25m, 9 posts.



077281	EuroNetz Rabbit-/hobby netting, Green 65/1-9/B-25m	= 1	£ 66.66	£ 79.99
022182	EuroNetz Rabbit-/hobby netting, Orange 65/1-15/G-50m	= 1	£ 103.33	£ 124.00
024377	EuroNetz Rabbit-/hobby netting, Green 65/1-15/B-50m	= 1	£ 103.33	£ 124.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

EuroNetz Poultry netting

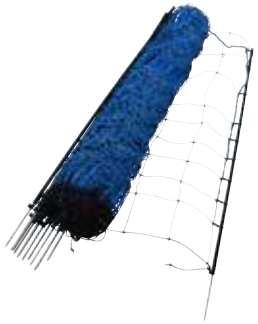
A poultry net is the ideal solution if you frequently need to move your chicken fence. It is user friendly and complete. It has a total length of 50m. Includes 15 single or double spike posts that are mounted in the net. It is easy to connect nets together.



022403	EuroNetz Poultry netting, Orange 112/2-15/G-50m	= 1	£ 147.50	£ 177.00
076833	EuroNetz Poultry netting, Green 112/2-15/B-50m	= 1	£ 140.00	£ 168.00
077298	EuroNetz Poultry netting, Green 112/1-9/B-25m	= 1	£ 83.33	£ 99.99
022229	EuroNetz Poultry netting, Orange 112/1-15/G-50m	= 1	£ 126.67	£ 152.00
075867	EuroNetz Poultry netting, Green 112/1-15/B-50m	= 1	£ 126.67	£ 152.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

Wolf netting, Blue

Protect your animals against wolves with this compact wolf netting. Post length is 1,20m and easy to handle. The netting has a 25mm top insulator for possibly adding blue signal tape. The netting is easy to connect together. With an extra reinforced, non-conductive bottom wire.



083039	Blue 120/1W14/B-50m	= 1	£ 107.50	£ 129.00

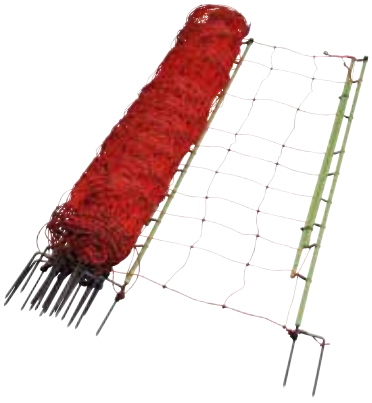
EuroNetz Wolf netting

Complete and user-friendly fencing netting to keep out wolves. The netting is 50m long and is 1.20m high. It has 14 posts with a double pin and a reinforced bottom wire to prevent it from being breached by gnawing or chewing. The netting is easy to erect and several nets can be linked together.

078677	Orange 120/2W14/G-50m	= 1	£ 115.83	£ 139.00

EuroNetz Wolf netting

Fencing netting to protect your animals against wolves, with a plus/min connection. This means that the wires are connected alternately to the plus and minus pole of the energizer. If 2 wires are touched at the same time, the animal experiences a strong, brief shock. This system guarantees full voltage, even on surfaces where earthing is tricky. The netting has 14 posts with a double pin, it is 1.20m high, 50m long and extremely easy to use.



078684	Orange 120/2W14/G-50m	= 1	£ 115.83	£ 139.00

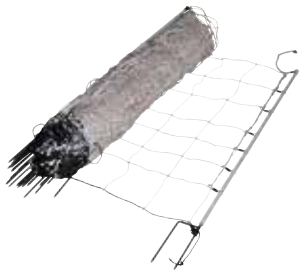
EuroNetz Wild boar netting

Turbo netting against wild boars. Strong posts 19mm, best solution to prevent wild boars destroying your crops. An electric fence in combination with a budget physical barrier.

062973	EuroNetz Wild boar netting, White 75/1-14/W-50m	= 1	£ 89.17	£ 107.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

EuroNetz Turbo netting

Strong, high quality Turbo netting. With a stranded cord, which re-enforces the top wire by 80%, for greater conductivity.



025473	White 90/2-14/W-50m	= 1	£ 115.83	£ 139.00
010493	EuroNetz Turbo netting, White 90/1-14/W-50m	= 1	£ 101.67	£ 122.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

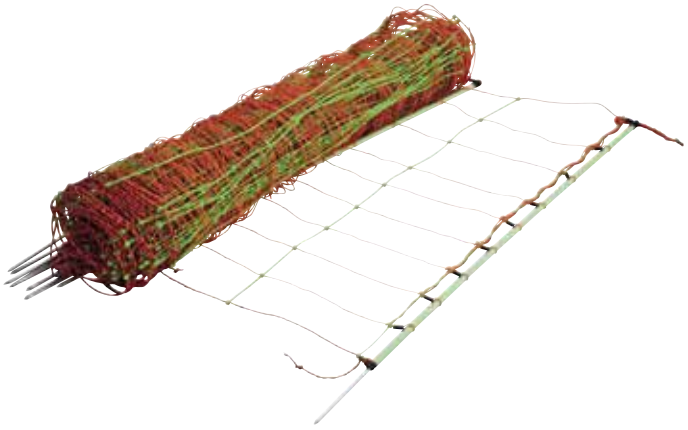
EuroNetz Combo netting

This netting is extremely suitable for uneven terrain with sheep and goats. The netting is 50m long. The plastic reinforcement of the vertical wires, every 30cm, ensures this netting is always tight. The netting includes 14 posts with double pin, which have been incorporated into the netting.

075584	EuroNetz Combo netting, Orange 90/2-14/G-50m	= 1	£ 110.00	£ 132.00
075546	EuroNetz Combo netting, Orange 90/2W14/G-50m	= 1	£ 118.33	£ 142.00
075539	EuroNetz Combo netting, Orange 105/2W14/G-50m	= 1	£ 133.33	£ 160.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

EuroNetz Combo netting

Combo netting: the netting with extra stability for use on rocky territory. Every 30cm the vertical wires are reinforced, resulting in a tighter net in rough terrain.



072415	EuroNetz Combo netting, Orange 105/1W14/G-50m	= 1	£ 111.67	£ 134.00
010356	EuroNetz Combo netting, Orange 90/1-14/G-50m	= 1	£ 91.67	£ 110.00
079360	Entry gate for EuroNetz electric netting (120x100cm)	= 1	£ 60.00	£ 72.00

SmartFence 2.0

SmartFence 2.0 is the alternative product for netting. A revolution design where posts, reels and wires are combined into 1 product. Quick and easy to put up.

700007	SmartFence 2.0	= 1	£ 204.17	£ 245.00
700045	SmartFence 2.0 4Pack	= 4	£ 729.17	£ 875.00

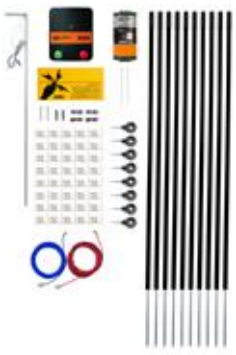
Starter kit M10 230V

The ideal basic set for effective fencing for pet and other applications around your house and in your garden. The starter kit contains the most important elements for electric fencing for keeping your dogs and cats out your garden and flower beds.

083114	Starter kit M10 230V	= 1	£ 74.17	£ 89.00

Garden kit 80cm

An ideal set for keeping pets out of your own garden or for keeping your neighbours' pets out. The M35 is a compact, but powerful mains energizer.



083091	Garden kit 80cm with M35 230V	= 1	£ 90.83	£ 109.00
083107	Garden kit 50cm M35 230V	= 1	£ 90.83	£ 109.00

Pet kit 80cm S6 Solar

2021 NEW PRODUCT

This set works with an energizer (S6) on solar power. A mains connection is not required, and the energizer can be put in any required place in the garden or on the campsite. This set consists of: S6, 100 m plastic wire, 4 wire connectors, 10 fencing posts of 80 cm, 40 wire clips, 8 screw insulators, 1 connection set, 1 earth peg and 1 warning sign.

084197	Pet kit 80cm S6 Solar	= 1	£ 128.33	£ 154.00

Cat kit for fence

This fencing kit is easy to install and extremely effective in use. It means the neighbours' cat can no longer enter your garden. The M10 is a mains energizer.

083121	Cat kit for fence with M10	= 1	£ 111.67	£ 134.00

Marten kit

Basic set for keeping martens off your land. With good electric fencing you reduce the chance of martens causing damage to your house or other property. This set contains insulators that can be installed on the down pipe.

	083138	Marten kit with M50 230V	= 1	£ 149.17	£ 179.00

077427	SnailFence tape extension kit 20m	= 1	£ 54.16	£ 64.99

Tools

If you are going to put up electric fencing you simply need the right tools. Whether you need to tension High Tensile fencing, cut wire, or screw down insulators, the job is simple when you use Gallagher tools.

Gallagher pliers

Gallagher pliers: These pliers are suitable for all types of fencing wire. High quality and durable. Minimum wire damage. Cuts high tensile wire.

005225	Gallagher pliers	= 1	£ 69.66	£ 83.59

Farmer pliers

Farmer pliers: indispensable fence pliers for cutting wire or removing staples. Can also be used as a hammer.

004140	Farmer pliers	= 1	£ 15.41	£ 18.49

Wire twister

With this wire twister, you can twist the wire clips around a wire without a problem. Ideal for use with Insultimber/Ecopost fences.

005232	Wire twister	= 1	£ 13.83	£ 16.59

Drill chuck Pro

Support to easy mount almost the entire range of Gallagher ring and screw insulators with your battery drill. (Not suitable for 057801, 057818 and 009350)

077397	Drill chuck Pro	= 1	£ 6.74	£ 8.09

Drill chuck Basic

Support to easy mount almost the entire range of Gallagher ring and screw insulators with your battery drill. (Not suitable for 057801, 057818, 009350 and Screw-in Insulator Super)

053933	Drill chuck Basic	= 1	£ 6.66	£ 7.99

Gallagher Screws

Self drilling torx screws 4,5x40 with cylinder head. The special red wax layer makes pre-drilling unnecessary. T25 Screw bit included.

050000	4,5x40 T25 (200)	= 200	£ 13.49	£ 16.19

Wire dispenser

Ideal for running out or winding up all types of wire. Fully galvanized for long life. Easy to use.

011018	For fencing wire	= 1	£ 135.83	£ 163.00

Post holer 100mm

Low cost and easy to use tool for installing soft wood posts. Using the postholer makes fencing easy and prevents the post from getting damaged when using a sledge hammer. Two diameters.

704668	For 100mm posts	= 1	£ 22.24	£ 26.69

Post holer 75mm

Low cost and easy to use tool for installing soft wood posts. Using the postholer makes fencing easy and prevents the post from getting damaged when using a sledge hammer. Two diameters.

704644	For 75mm posts	= 1	£ 20.83	£ 24.99

Sledge hammer

Indispensable for driving Eco posts to correct depths without damaging posts. Prevents posts from standing out of line.

017614	Sledge hammer	= 1	£ 57.49	£ 68.99

Rammer

Indispensable for driving Insultimber posts to correct depths without damaging posts. Prevents posts from standing out of line.

035311	For Insultimber posts	= 1	£ 111.67	£ 134.00

Rammer

Indispensable for driving Ecoposts to correct depths without damaging posts. Prevents posts from standing out of line.

017652	For Eco posts	= 1	£ 108.33	£ 130.00

Rammer

Special rammer for convenient hammering in of a Gallagher Line post.

525013	Line Post Rammer	= 1	£ 30.83	£ 36.99

Line Post Accessories

Sleeve for Line Post rammer 1350mm and 1500mm.

530031	Line Post Rammer sleeve	= 1	£ 7.49	£ 8.99

Line Post Accessories

Line Post Auger to easily place Gallagher Line Posts in hard ground. Handy tool designed specifically for the Gallagher Line Post.

540016	Line Post Pilot	= 1	£ 140.83	£ 169.00

Universal post Lifter

Post Lifter, suitable for the Line Post lifter adapter To easily pull out the Gallagher Line Post.

527000	Universal Post Lifter	= 1	£ 122.50	£ 147.00

Line Post Accessories

Line Post Post lifter to easily pull out the Gallagher Line Post.
Handy tool designed specifically for the Gallagher Line Post. To be used together with the universal post lifter (art. no 527000)

527017	Line Post Lifter Adapter	= 1	£ 10.83	£ 12.99

Wire tensioner

Tool for installing ratchet tensioners in fencing.

029044	Wire tensioner basic	= 1	£ 12.83	£ 15.39

Wire tensioner

An essential tool for use with Permanent Wire Tightener. Fast and easy to use, even in confined areas. One way bearing allows ratchet action of the handle.

006451	Wire tensioner pro	= 1	£ 190.83	£ 229.00

Screw-in Tie Down

The Screw-in Tie Down anchors the Line Post to the ground in surfaces with hills and hollows. Fast and easy to install, using the handle for the screw in tie down. (SKU:006161)

106151	Screw-in Tie Down	= 5	£ 39.17	£ 47.00

Tie Down Handle

This handle is needed when installing a Screw-in Tie Down (SKU:106151) Easy to use and can be removed and re-used afther the tie-down is screwed into the ground.

006161	Handle for Screw-in Tie Down	= 1	£ 78.33	£ 93.99

Horse-fly trap

H-Trap

Control horseflies without chemicals. Neither animals, such as horses or cattle, nor people enjoy horseflies. The H-trap reduces the horsefly population to an absolute minimum. Tests have demonstrated that a 90-95% reduction in horseflies can be achieved around an H-trap without using pesticides or electricity.

034014	Horsefly trap / 1,20x1,95m	= 1	£ 129.17	£ 155.00

MT-Trap

You need a horsefly trap to stop horseflies and wasps and this horsefly trap ensures that 95% of horseflies is captured. The MultiTrap, a portable horsefly trap, also known as the MT-trap, has been designed to eradicate horseflies and wasps.

000441	Horsefly and Wasps trap / 40x50cm	= 1	£ 33.33	£ 39.99

Horse-Fly Magnet

The horsefly magnet is the entry model for dealing with wasps and horseflies. The horsefly trap is suitable for a plot with 5 horses or a paddock of maximum 10,000m2.

000861	Horsefly trap 1,20x1,95m	= 1	£ 99.17	£ 119.00

Specialist in keeping wild animals out

Electric fencing, most people assume that it is only used to keep cows, sheep or horses in a field. But did you know that it is also a perfect way of keeping wild animals out?

More and more often, we help our customers find solutions to protect field birds, poultry, sheep and crops, for example. Electric fencing is used to protect against attacks from foxes or wolves. But it can also combat damage to crops caused by wild boar and deer. They can all cause massive damage, which is why we recommend you protect your property. We will be pleased to help you find the perfect solution.
The type of fencing you choose depends on the animal causing the problems and whether this is all year round or only during a certain season. On this page, we'd like to inform you about how to keep foxes out. Check out www.gallagher.eu for many other solutions to help prevent visits from wolves, wild boar, deer and weasel-like animals. Is your problem not featured here? Don't hesitate to contact us. Our fencing specialists are pleased to assist!

Tip: By adding a FoxlightS, wild animals are startled by beams of light in the dark, that are produced in a random pattern. The Foxlight gives the impression that there are people present. The wild animals will then stop exploring the area.

p. 75

Did you know that you can download white papers from gallagher.eu, with all information on how to keep wild animals out?

Foxes are smart animals. Once they have set their sights on something, they will do everything they can to get it. When it comes to electric fencing therefore, we would always opt for a double fence. If the fox manages to get under the outer fencing, he will still quite literally come up against the inner fence. We offer both temporary solutions and permanent solutions to keep foxes out. We'll be pleased to explain both solutions.

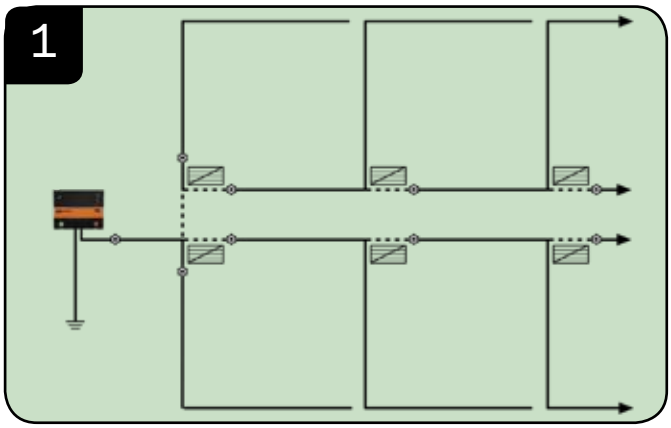
Step-by-step installation

When requiring effective and permanent fencing, you choose hardware in materials that will last for many years. It is therefore also essential that your permanent fencing is installed properly. We would therefore like to give a general guide on how best to construct a permanent fence.

For more detailed information, please check www.gallagher.eu.



Draw a ground plan

Determine the required wire height (see page 84)

First fit the corner posts

Fit the intermediate posts

Fit and tension the fencing

Install the energizer and earthing

Use the Line Posts in combination with the droppers. That's an even quicker and more affordable solution.
Go to www.gallagher.eu/insulated-line-post for more information or scan the QR code.

Do the Gallagher Check!

As an animal lover, you want to be certain that your animals stay safely in their field, and you do not want breakouts. It is therefore essential to check your fencing in order to be certain that it's working optimally. Spring is the perfect time to check the fencing, for a fresh new start of the grazing season.

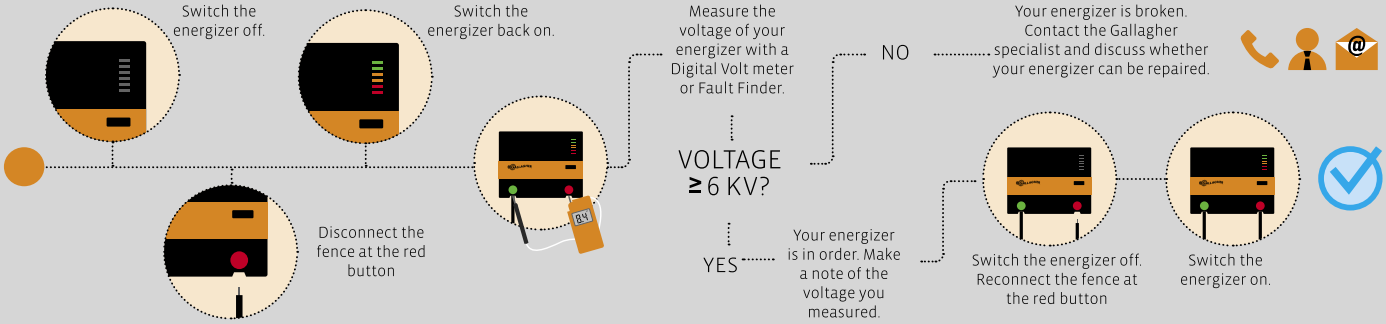
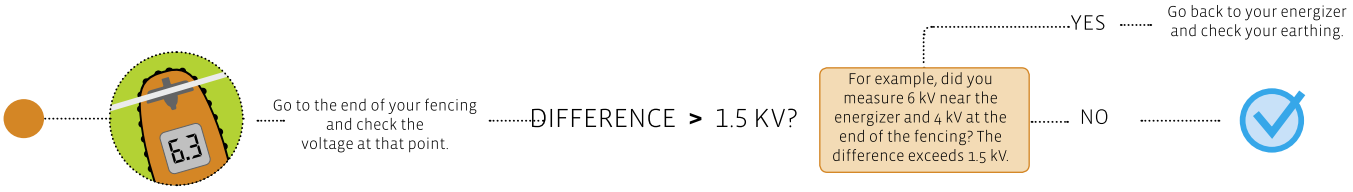
All the steps are of course explained in detail in the Gallagher Check video. **Go to www.gallagher.eu/check for more information or scan the QR code.**

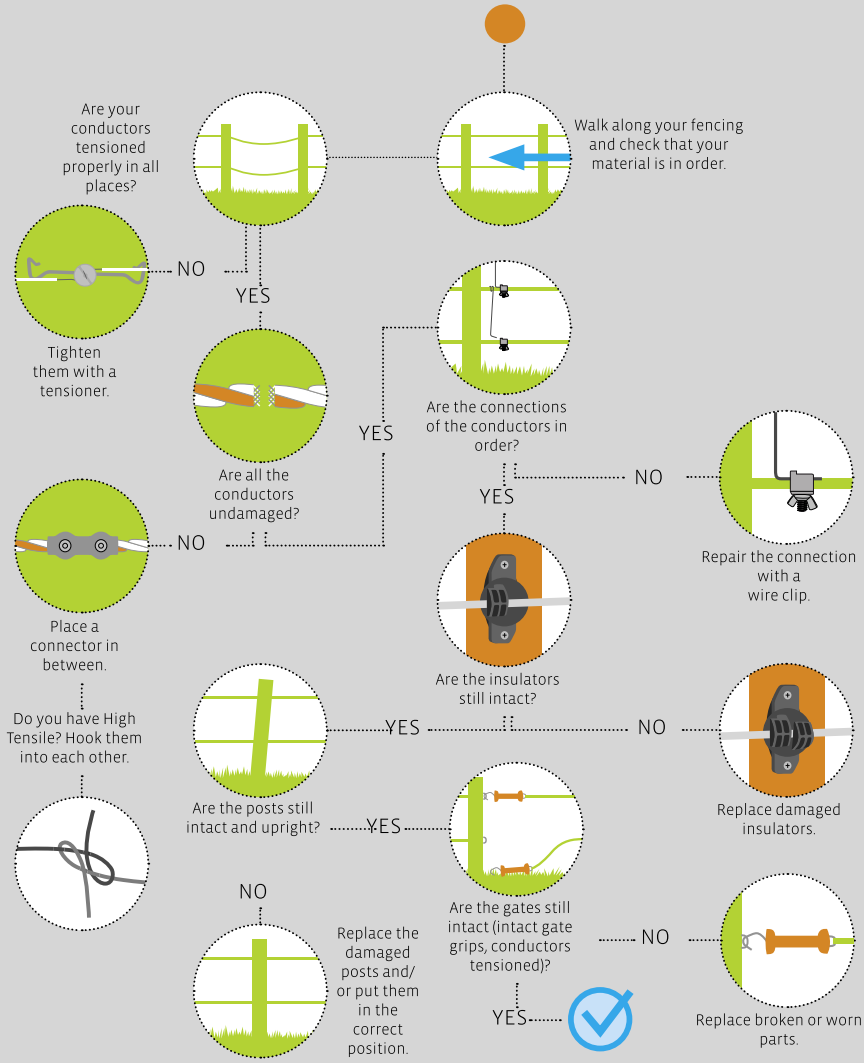
STEP 1 CHECK YOUR ENERGIZER



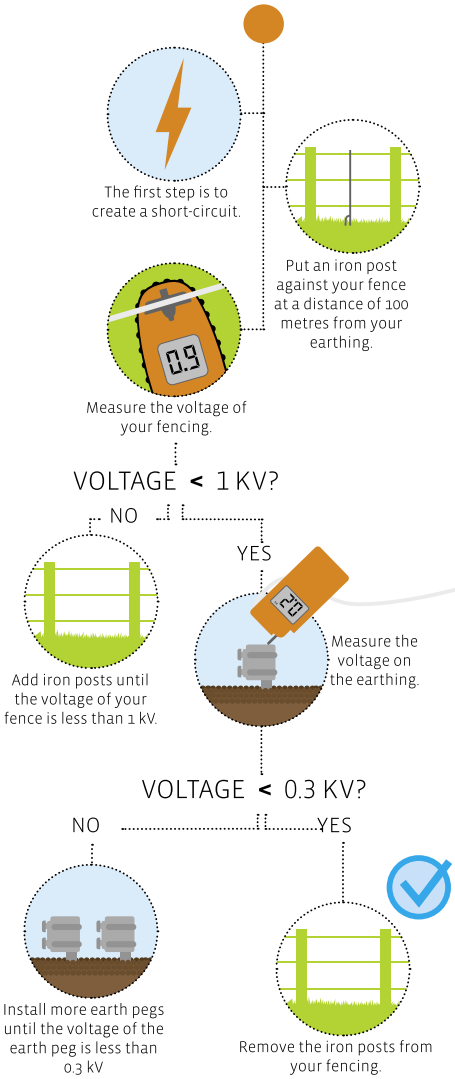
STEP 2 CHECK THE VOLTAGE ON YOUR FENCING



STEP 3 CHECK YOUR FENCING



STEP 4 CHECK YOUR EARTHING



Weighing and EID systems

With more than 80 years' experience in the agricultural industry and a reputation for trendsetting innovations, Gallagher is ahead of the field when it comes to Weighing and EID solutions – offering a complete range of equipment for weighing animals, gathering data, and EID systems.

"IMPROVED operating results with efficient animal management
Are you looking for improvement opportunities in your company? "

"Gallagher is able to assist. An investment in a weighing system pays for itself in various ways. Weighing animals provides insight into the growth performance of the entire herd, but also at individual level. It is also possible to manage feed and medication costs more efficiently. Furthermore, you know exactly which animal has the highest yield at any time."

How does it work?

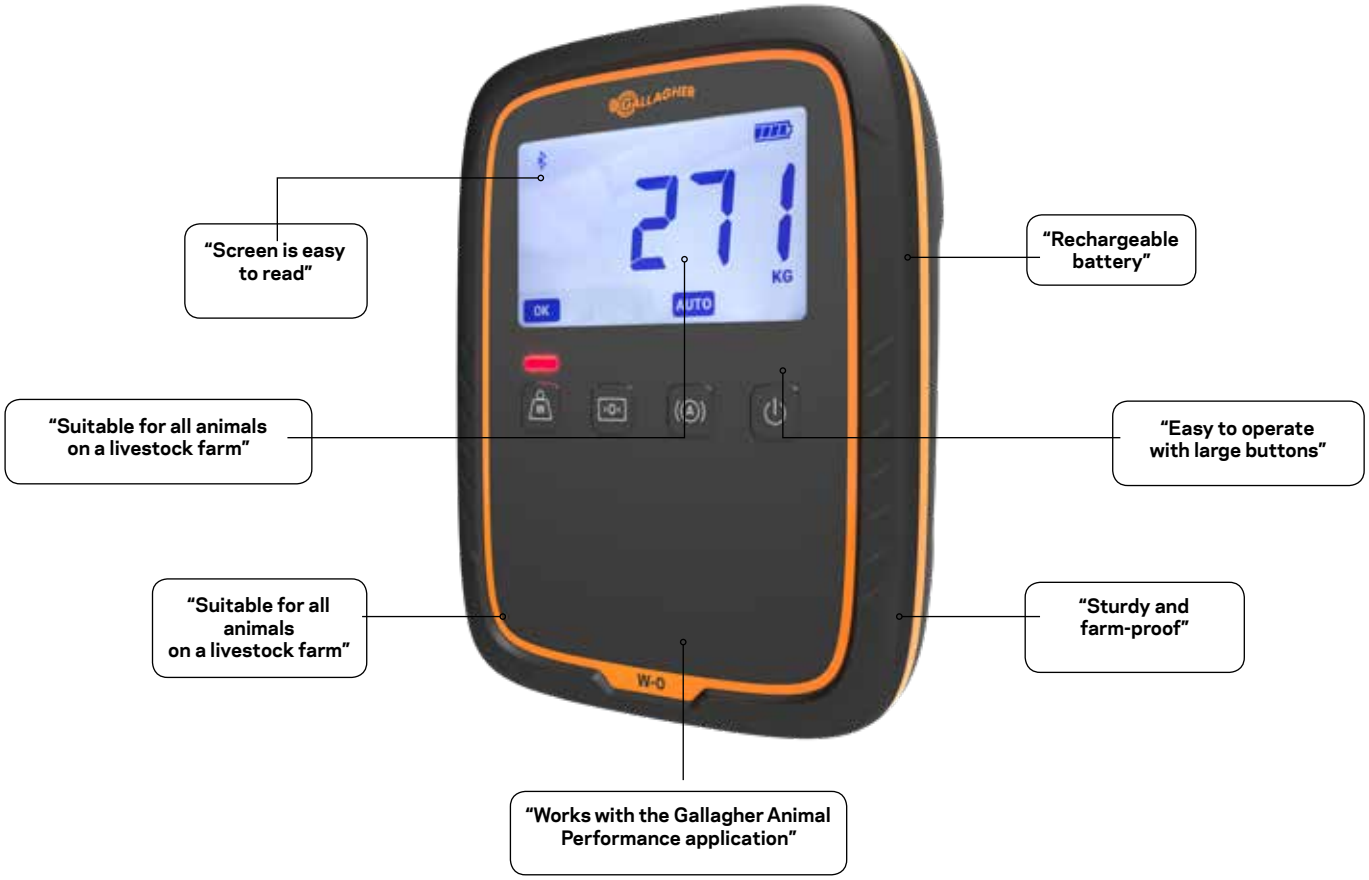
There are various ways to start weighing and/or identification. For example, you can weigh animals without identification; you need scales, loadbars and a platform/box. If you wish to measure groups and individual animal performances, you will need to use electronic ear tags. These ear tags can be scanned with a fixed antenna panel or with a portable EID reader (HR5 or HR4). By reading the ear tag, an ear number can be linked to the weight and individual data become clear.

If you are interested in how that works, take a look at the video here.

NEW SCALES W-0

AVAILABLE FROM SPRING 2021

"Gallagher has provided hardware and software for efficient animal management for many years. This year we are proud to introduce a new digital entry model, the Gallagher W-0. The W-0 is the perfect entry model to start measuring animal performance. It makes digital and accurate weighing available and affordable to everyone, you know exactly when the animal produces its highest yield."



025001	Weigh scale W0	= 1	£ 415.83	£ 499.00

MANAGE THE DATA IN THE CLOUD WITH THE GALLAGHER ANIMAL PERFORMANCE MANAGEMENT SOFTWARE

The new Gallagher Animal Performance management software makes it possible to have the data on the herd at anytime and anywhere. You can make FREE use of the Gallagher Animal Performance management environment! It is possible to log into your own account on the scales, smartphone or a computer. The devices communicate with each other through Wi-Fi to make sure every device has the correct data. Its design and user-friendliness make it accessible to any user.

Weigh scale TW-1 and TWR-1

The most intuitive EID-compatible scales in the market. With its touch screen and user-friendly interface, the TW-1 is easy to operate. Measure and manage weight increase in your animals to achieve maximum returns on your farm. With the alphanumerical keyboard you can add tag information and notes. The on-board instructions mean that help is always available, wherever you are with your TW-1.

The robust design makes the TW-1 farm-proof, resistant to dents, scratches and extreme weather conditions. Supplied with a convenient Gallagher carry bag, fitting bracket, charging cable and USB and APS software.

With on-board instructions to offer help 24 hours per day and 7 days per week

Take notes on animals, and receive alerts

Trendsetting touchscreen technology

Birth Alarm is a birth-alert system and monitors the horse's health

Birth Alarm for monitoring health.

Always know what is going on with your horse. Now you can with Birth Alarm's solutions. A number of Birth Alarm's products have a 'monitoring setting'. Generally, a horse will not lie down for a long period of time. If the owner suspects that the horse has a health issue, a Birth Alarm can be attached to the halter or to the horse's antiroll girth. When the horse lies down, the owner receives an alert, and he or she can take action immediately.

Birth Alarm Advanced

The Birth Alarm Advanced is the latest development in the Birth Alarm range.

The system is easy to install and easy to expand to max. 4 mares. The touchscreen colour display dims automatically at night. Suitable for mares that sleep lying fully flat and has the functionality to monitor the health of your horse.

084524	Birth Alarm Advanced	= 1	£ 732.50	£ 879.00

Birth Alarm Premium

The system for ultimate control and comprehensive options. Contains a unique sleep mode especially designed for mares that sleep fully flat. Option to connect to 4 mobile phones. Including the option to retrieve status messages. The transmitter can be fitted in the anti-roll girth or on the halter, depending on the preference of the mare.

084548	Birth Alarm Premium	= 1	£ 590.84	£ 709.00

Birth Alarm Lite 2.0

The entry-level model of the Birth Alarm range. Easy to install, a system in which the transmitter sends a timely alert to a maximum of two connected mobile phones. The transmitter can be fitted in the anti-roll girth or on the halter, depending on the preference of the mare. Now with sleep mode!

084555	Birth Alarm Lite 2.0	= 1	£ 399.17	£ 479.00

Birth Alarm Classic

The Birth Alarm Classic has proven its worth in recent years as a highly reliable birth alarm system for mares. The system consists of a transmitter, a fixed receiver and an assembly kit. This system can be used for mares that sleep fully flat. It can also be used to monitor the health of the horse (colic mode).

510	Birth Alarm Classic	= 1	£ 607.50	£ 729.00
511	Birth Alarm Classic, incl. Anti roll girth	= 1	£ 649.17	£ 779.00

Birth Alarm Classic

The Birth Alarm Mobile works with a transmitter and the mobile phone as a receiver. Two different phones can serve as receivers. The transmitter must be fitted in an anti-roll girth. This transmitter contains a unique sleep mode especially designed for mares that sleep fully flat.

025480	Mobile	= 1	£ 499.17	£ 599.00
027934	Mobile incl. Anti roll girth	= 1	£ 549.17	£ 659.00

NEW: BIRTH ALARM CAMERA SYSTEMS

You may want to see what is going on in the stables or in the paddock at any time of the day. Therefore, Birth Alarm produced two camera systems that provide you with even more monitoring and overview. In combination with the other Birth Alarm products, these cameras provide optimum monitoring.

000655	PoE camera	= 1	£ 82.50	£ 99.00
054628	Wifi camera	= 1	£ 82.50	£ 99.00

Birth Alarm Mobile + WiFi Camera

The Birth Alarm Mobile, now available in combination with the Foscam WiFi camera! A very attractive combination to monitor the mare as closely as possible during the birth of the foal. The Birth Alarm Mobile triggers an alarm, after which the combination with the camera provides the ideal solution.

084654	Birth Alarm Mobile + WiFi Camera	= 1	£ 574.17	£ 689.00

WEEE Directive

Our energizers are marked in accordance with the European Directive 2012/19/EU regarding Waste Electrical and Electronical Equipment (WEEE Directive). In case you want to dispose of energizer, you may not treat this device should not be treated as municipal waste. The device should be delivered to the selling point where you have bought this or returned without charge to Gallagher Europe. By doing so you contribute to the processing of the device in an appropriate manner and to the prevention of possible harmful consequences for the environment and public health.
